Gute Geschichte, packend geschrieben.Von SidewinderDieses englische E-Book gab es fr 0,00 im kindle-Shop, da dachte ich mir, kann ich nichts falsch machen und nachdem ich es gelesen habe kann ich sagen: ich htte auch Geld dafr ausgegeben.Die Geschichte handelt von dem frisch ausgebildeten Andy Moralee, der zu seiner neuen Einheit kommt (Dropship Infantry, eine Art Weltraum-Landungstruppen) und sich im ersten Teil des Buches seinen Platz in der

Hackordnung des Militärs erkämpfen muss. Es folgt die Landung auf dem Planeten New Earth und der Versuch der Union (Europa, USA, Russland), den Planeten den Chinesen zu entreißen, die ihn vor zwei Jahren durch Verrat an sich gebracht haben. In der ersten Schlacht, die Moralee kämpfen muss, fällt es ihm schwer, mit der Gewalt, dem Verlust von Freunden und der Angst klar zu kommen. Die zweite Phase des Kampfes um den Planeten findet in labyrinthischen Tunneln unter der Oberfläche statt, wo Andy über sich hinauswächst und zu einem der besten Soldaten wird. Ziemlich viel Action, interessante Zukunftstechnologie, eine düstere Vision von der Erde der Zukunft und ein wenig Militär-Pathos. Eine Mischung aus der ersten Hälfte von Full Metal Jacket und der ersten Hälfte von Soldat James Ryan. Absolute Leseempfehlung für Fans von Militär-Thrillern und SciFi-Action ohne Aliens. Great first book Von Brent Simpson I've read a lot of military fiction recently. This stands tall among them. The action is vivid and realistic, the characters believable and paced wonderfully. Keep it up Mr Richards!

Kurzbeschreibung Book One of The Union Series Andy Moralee knew that life with his new company of Dropship Infantry would be hard, but nothing could prepare him for life in one of the toughest units in the Union army. New arrivals, nicknamed Crow by their platoons, are the lowest form of life in his Company, and he finds himself at the mercy of unforgiving commanders and bullies, all the time knowing that the real enemy are waiting for him at the end of his journey through the void. The enemy know that the Union are coming, they have dug in and fortified, and they are ready. C.R.O.W is a Military Science Fiction novel that follows Andy Moralee across the cosmos, and into combat against a well-equipped enemy prepared to fight to the very end. Phillip Richards is a soldier serving in the British Army, and an avid fan of science fiction. He has served in the army for twelve years since enlisting as a 17 year old boy, and since having done so he has served on eight operational tours. This includes operations in Kosovo as a peacekeeper, the Iraq Invasion of 2003, and several tours of Afghanistan. During this time he has promoted through the ranks to sergeant and has spent two years instructing infantry recruits in North England.
