Von Ingrid Stephanie Jordan 5 Stars Title: Cherished Series: True Mates: Book 5 Author: Olivia Arran Reviewer: (Ingrid) Stephanie Jordan #Paranormal #WolfShifter Oh No!! This is the last book of this series! Boy am I crying, I really loved these books. Ms. Arran made all these characters so real I thought I was there with them. But alas I wasn't, is there always an ending of HEA? Bert, Sean's father is an evil man who likes to inflict pain on everyone he can. Especially his children. Oliver Colstone is a very quite human man/wolf shifter, he never says much to anyone. He is the fixer for both the Colstone Pack and the Shifter Council. After finding Bert's hideout he let the team know where everything was? Who was their, how many men? So the team went in to get Bert, this is when Oliver found her, washing the kitchen floor, her wiggly butt sticking straight up. YUM Ana Arlington was a human who was kidnapped from her home, abused, brutalized and tortured, then they kept her for breeding. She did everything she was asked to save her child. Ana survived, she had to and when Oliver freed her she felt something yes she was free but there was something there with Oliver. What is it? How could this be? Did she feel cherished? Is there going to be HEA? I was gifted this ARC for an honest and truthful review.

Kurzbeschreibung Im the pack fixer and Im not afraid of getting my hands dirty. Wolf shifter Oliver Colstone was handpicked to be the pack fixer because of his specialist training, his lack of emotions, and his willingness to do whatever is needed to get a job done. Got a problem? Hes your man. But one look at his true mate and Oliver thinks he might be the one in trouble this time... Im a survivor but can I survive being the focus of Oliver's attention? Life hasnt been a barrel of laughs for curvy Ana Arlington, but she hasnt given up. Nope. Shes got her son to think about and a future to plan. First things first, she has to find a way to escape her captors. She doesnt need a smoking hot black-ops kind of guy swooping in and rescuing her. Okay, maybe she does but does he have to look so darn irresistible doing it? As destiny draws human and shifter together, will Oliver be able to convince Ana to give up her prejudices and take a chance on fate or will she forever close her heart to true love? **This book comes complete with a Happy Ever After** It is recommended that you read this series in order, starting with the short prequel Found: True Mates Book 0.5 then Promised: True Mates Book 1.
