Wer auf brutale Gefechte im mittelalterlichen Stil nach Heitz und Hennen (deutsche Autoren) steht und ein Buch lesen will, dass einen nicht mehr

los Isst der ist hier richtig. Wer Angst vor Gemetzel und Blut hat sollte sich ein anderes Buch suchen. Gefhle, Liebe und Hass sind auch dabei. Gutes Vorstellungsvermogen und Engischkenntnisse vorausgesetzt.Lesen!5 von 6 Kunden fanden die folgende Rezension hilfreich. Surprisingly good: enter a new world and be amazedVon KangarooThe writer is able to create a new world that slowly unfolds in front of the readers eyes. Different cultures, races, and characters are beautifully created as well as a backstory of a world and civilization that is very old and at the brink of destruction from within and without. Two characters, who are both very different from the societies they live in, each for very different reasons, are not just trying to survive but moreover are trying to change the world around them. How will their different goals and methods collide and intersect? Will they cooperate?A nomadic desert tribe adopts a baby that was left in the desert for dead. He had been a slave but had fought his way to freedom with a high price. But - he is not human, he is an atherian (which is kinda like a dragon) and one of his kind because unlike most of his lizard relations he has wings. Even though he looks like an animal (and many characters in the book use that derogatory), he is as smart as any one else. Yet, after he recovers, he is soon faster, stronger and bigger than his human family. A prophecy was spoken over his life and the questions remains what that fate will actually look like. When his family meets a terrible tragedy, Raz sets out on a course of revenge. But can he truly change the crumbling world around him?The idea for the main character is interesting and intriguing. He is so very different from the main civilized society that rejects him. The desert culture he becomes a part of is more accepting because they can see his humanity. That is the point where Raz creates an interesting dichotomy between his alien animal like appearance and his very human, compassionate heart for the beggars, outcasts, and slaves. While the civilized humans have become animalistic at heart and treat each other without dignity and respect. He has an interesting, only partially revealed backstory and it can be expected that further books in the series will establish his family and background more thoroughly and one can only hope that the story will come back to his mother and her reasons for sending him away from his family.Razs counter character and destiny (as foretold in the prophecy) Syrah balances the violence and brutality of Razs actions with a very different life style determined by the Faith. Their one unbreakable rule to never kill or cause someone to die, yet their mastery of martial arts and other fighting techniques, their ministry of healing and diplomacy presents this other possible way of life that could be an escape route for Raz as well as the possibility of mending his broken heart. Her albinism sets her apart from everyone else as well but she still thrives in that society and her difference is no hinderance for her success as a diplomat and helper. Their brief, intense encounter changes both their lives forever even though the implications of that event are more complex than anyone imagined.3 von 4 Kunden fanden die folgende Rezension hilfreich. gorgeousVon VanillaDomOne oft the most compelling books i have read in recent years.To see a believable character evolve... so see achievements as well as tragedy combined in such a compelling way really made my day. A sellsword of the utmost caliber, Raz is a killer of paramount skill and highest regard. Towering tall even amongst the atherian, he is the only of his kind to live free in the "civilized" confines of mankind's varied cultures. Wed to his blades, Raz's only friends are the Moon and Her Stars and the shadows they bring with the night. But Raz was not born to the mercenary's way, to the butchery and battle of day-by-day survival. Raz, like a sword, was hammered from steel and fire and ashy smoke, forged on the ruins of an old life. And Raz knows who he owes this new path to, this carved way of blood and iron. The Monster of Karth, after all, would never forget who gave him that name.
