Clarke's heir apparent! Von TMTchaikovsky has all of Clarke's scientific authenticity and relatable characters, plus strong insight and a clear voice of moral implications. Thought provoking and thoroughly enjoyable. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Gefällt mir. Von Dr. Tofu Weltraum-episch originell. Im englischen Original stellenweise etwas schwierig für mich als Nicht-Muttersprachler zu lesen, aber es hat sich gelohnt. Volle Punktzahl für die kurzweilige Lektüre. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Great story Von Blende8 Amazing read, that raises a lot of philosophical questions. Remarkable characters and a well rounded story. I can highly recommend it.

Kurzbeschreibung 'Children of Time is a joy from start to finish. Entertaining, smart, surprising and unexpectedly human.' - Patrick Ness Winner of the 30th anniversary Arthur C. Clarke Award for Best Novel Adrian Tchaikovsky's critically acclaimed, stand-alone novel Children of Time, is the epic story of humanity's battle for survival on a terraformed planet. Who will inherit this new Earth? The last remnants of the human race left a dying Earth, desperate to find a new home among the stars. Following in the footsteps of their ancestors, they discover the greatest treasure of the past age - a world terraformed and prepared for human life. But all is not right in this new Eden. In the long years since the planet was abandoned, the work of its architects has borne disastrous fruit. The planet is not waiting for them, pristine and unoccupied. New masters have turned it from a refuge into mankind's worst nightmare. Now two civilizations are on a collision course, both testing the boundaries of what they will do to survive. As the fate of humanity hangs in the balance, who are the true heirs of this new Earth? Pressestimmen Children of Time is a joy from start to finish. Entertaining, smart, surprising and unexpectedly human (Patrick Ness) A refreshingly new take on post-dystopia civilizations, with the smartest evolutionary worldbuilding you'll ever read (Peter F Hamilton) This is superior stuff, tackling big themes - gods, messiahs, artificial intelligence, alienness - with brio (Financial Times) Werbetext A race for survival among the stars . . . Humanity's last survivors escaped earth's ruins to find a new home. But when they find it, can their desperation overcome its dangers?
