Hallelujah indeed! Von Elizabeth Bennett Just to imagine a Marine, Captain Wayne Turner, falling from the sky like a

raindrops into my lap... And it gets better after that! He doesn't mind that Kayla is in the middle of a New Ager spiritual drumming circle session. The two hit it off from the start, but then the past catches up on many levels and it takes a dying veteran and a paranoid best friend to sort it all out. But seriously, some of the hottest scenes I have read without being cheap and sleazy. Tirza Schaefer has a way of making the kinkiest scenes sound empowering and freeing because with all the heat and kink, she doesn't see the need to use derogatory and negative words, such as c\*\*t, wh\*\*e, sl\*t and the like which usually other authors use that write very explicit kinky scenes. It's all a matter of your mindset and I love how Schaefer expresses herself without losing any of the steam and kink in the process, but rather adding to it. And moreover, Tirza wouldn't be herself, if she didn't weave something very profound into the story, a dying old man and how to handle being there for a loved one while passing over without distressing yourself or them, but rather, allowing it to be an empowering, liberating and deeply loving and healing process. Yes, and again, she writes it in such a way that it works perfectly. At the end of the day, that's what this book is all about: love on all levels, all areas of life. But read it for yourself! It's beautiful!

Von Susan Pfeiffer Selva

Chopped Encounter is an erotic novel with a difference. The story is all a woman wants: a strong hero, a self-confident woman who can hold her own and loyal friends who help and support selflessly. The story starts with the Marine officer dropping right out of the sky. What a beginning! And there are a few funny scenes following before the action turns into the emotional depths of people of different backgrounds and life experiences. This is a book that has it all. Passion, depth and real character. The way it is written has a special charm of its own. There is so much love in the way the author, Tirza Schaefer, has described her characters that it gives the book an added dimension which is endearing to the heart. I have already bought another book of this author. Excuse me now, while I'm reading! And read this book! It's worth it!

In a sleepy, Southern small town, a shamanic drumming group meets Marines at practice. A German nurse sees a Marine officer descend from the sky and takes pictures with her before returning to training. I didn't expect such a start at all and was wondering if the author had not shot all her ammunition too early. But no, there is more to come and all of it is not only entertaining, but also putting a spell on you. This is the story of not only two people falling in love, but it is also the story of an old veteran who imparts wisdom to the younger generation, loving friends who lend their support in times of need, the most heated battles between the sheets, and overcoming your past to step into a brighter, happier future. I've laughed, I've shed tears and I've been all hot and bothered reading this! An onslaught of emotions combined in a fast-paced, hot story that certainly has deserved to be called Erotic with a capital E!

CHOPPED ENCOUNTER by Tirza Schaefer

German nurse Kayla is visiting a friend in the USA when a group of Marines in training literally fall out of the sky at her feet. Captain Wayne Turner draws her into a whirlwind of emotions, more confusing than the wind created by the helicopter he dropped out of. After a stormy night of passion, she comes face to face with his ex-wife and runs off. But then Wayne's best friend Dale finds her and asks her to help him to prove Wayne's innocence after his arrest. Kayla helps, but it takes an old man and a hard look at herself for her to consider giving Wayne a second chance. Can he regain her trust?
