Von Stephen King : Christine (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Christine (English Edition):

Yawn!Von SteelStephen King has written some excellent pieces of literature and it would be grossly unfair of me to call them anything less than masterpieces, however he has also written complete trash on occasions, Christine however is somewhere in between, it is not a particularly disturbing book, as one might expect from the horrormeister, nor is it completely without the ability to send a chill down the spine, but it certainly won't make you think twice before

turning on the ignition, if it's thrills you want, and you want to be frightened then don't read this book, try IT, because to be quite frank this book is quite boring, it took me a long while to get into it, and once I did I was not impressed, Stephen King can write far better than this, and I'm sure he will amaze us soon, with a masterpiece of literature. Good but not the bestVon Ein KundeThis was one book of King's that I put off reading for a long time because I had heard it was not very good. Well I finally broke down and read it, and while I was not dissapointed I did feel it was not as good as his other works. The story and the plot were great and interesting I especially like the history of the car, but the charactors did not see as fleshed out as much as in his other books.1 von 1 Kunden fanden die folgende Rezension hilfreich. YOU'LL BE AFRAID OF CARS AFTER READING THISVon Marco AurelioOnce, I picked this book to read and gave up. I was enjoying it but the fact that CHRISTINE is too thick was enough to pick a thinner book. But time passed and I knew I had time to read it. This happened almost three years after the first time I tried it. And I finished it in only one week, which, to my schedule, is something very fast. I like to tell friends that no one can ever be frightened by reading an horror book because your mind expect terrible things to happen even if you don't know about them counciously. But guess what! While I was reading this book, every car that appeared next to me frightened me. It seemed like a big starving dinossaur. Creepy, isn't it? But I convinced myself that this is what happens when you have in your hands a very well-written book. CHRISTINE is a marvelous book. If you're a fan of the horror genre, this book is a must-read.

KurzbeschreibungStephen Kings ultimate, evil vehicle of terror, Christine: the frightening story of a nerdy teenager who falls in love with his vintage Plymouth Fury. It was love at first sight, but this car is no lady.Evil is alive in Libertyville. It inhabits a custom-painted red and white 1958 Plymouth Fury named Christine and young Arnold Cunningham, who buys it. Along with Arnolds girlfriend, Leigh Cabot, Dennis Guilder attempts to find out the real truth behind Christine and finds more than he bargained for: from murder to suicide, theres a peculiar feeling that surrounds Christineshe gets revenge on anyone standing in her path. Can Dennis save Arnold from the wrath of Christine? This #1 national bestseller is Vintage Stephen Kingbreathtakingawesome.
