Von James S. A. Corey : Cibola Burn: Book 4 of the Expanse (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cibola Burn: Book 4 of the Expanse (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The expanse just got a little "bigger"...Von Splash_42It's quite a good read and since I love the whole Expanse Universe I never thought twice of going on with the series. Since Jim and Naomi went through the ring we discover new facets of

our heroes, we learn more about their weaknesses. On the other hand I miss suspense of the first three books. After they went through the rings I never once felt like "Man, I didn't see THAT coming!" Even so, this is critique on a high level and I still can recommend all the books of the series till now.0 von 0 Kunden fanden die folgende Rezension hilfreich. Packend bis zur letzten Seite Von David H. Ich finde die bergige zwischen den Kapiteln sind sehr gut gelungen. Eine Mischung aus Politik und Science-Fiction. Das Buch konzentriert sich auf die zwischenmenschlichen Beziehungen. Technische Details oder physikalische Phänomene werden ausgebreitet. Sie werden aber nicht so lang und breit erklärt wie man es vielleicht aus anderen Science-Fiction-Romanen in Kent. Die Science Seite ist etwas oberflächlicher. Dafür hat man eine spannende Handlung die auch mit Action gemischt ist.0 von 0 Kunden fanden die folgende Rezension hilfreich. I liked it! Von Paul Thomas Despite some bad reviews, I bought it, because I think it's stupid to skip an entire book of a series. And it was good to do so, I found it quite thrilling with more and more events piling up to the end (as usual). Also the plot is nice, having homeless belters escaping their hobo ship by colonizing an alien planet which is soon claimed by an earther company, with the interest in mining resources and getting a hand on alien technology.

KurzbeschreibungThe fourth book in the New York Times bestselling Expanse series. NOW A MAJOR TV SERIES FROM NETFLIX The gates have opened the way to a thousand new worlds and the rush to colonise has begun. Settlers looking for a new life stream out from humanity's home planets. Illus, the first human colony on this vast new frontier, is being born in blood and fire. Independent settlers stand against the overwhelming power of a corporate colony ship with only their determination, courage and the skills learned in the long wars of home. Innocent scientists are slaughtered as they try to survey a new and alien world. James Holden and the crew of his one small ship are sent to make peace in the midst of war and sense in the heart of chaos. But the more he looks at it, the more Holden thinks the mission was meant to fail. And the whispers of a dead man remind him that the great galactic civilisation which once stood on this land is gone. And that something killed them. Cibola Burn is the exhilarating fourth novel in the New York Times bestselling Expanse series, following the Hugo-nominated Leviathan Wakes, Caliban's War and Abaddon's Gate. **Pressestimmen**"It's been too long since we've had a really kickass space opera. LEVIATHAN WAKES is interplanetary adventure the way it ought to be written, the kind of SF that made me fall in love with the genre way back when, seasoned with a dollop of horror and a dash of noir. Jimmy Corey writes with the energy of a brash newcomer and the polish of a seasoned pro. So where's the second book?"George R.R. Martin on Leviathan Wakes "The science fictional equivalent of A Song of Ice and Fire... only with fewer beheadings and way more spaceships."NPR Books on Cibola Burn "Combining an exploration of real human frailties with big SF ideas and exciting thriller action, Corey cements the series as must-read space opera."Library Journal on Cibola Burn (Starred) "The Expanse is the best space opera series running at full tilt right now, and Cibola Burn continues that streak of excellence."io9 on Cibola Burn "A politically complex and pulse-pounding page-turner.... Corey perfectly balances character development with action... series fans will find this installment the best yet."Publishers Weekly on Abaddon's Gate "An excellent space operatic debut in the grand tradition of Peter F. Hamilton."Charles Stross on Leviathan Wakes "High adventure equaling the best space opera has to offer, cutting-edge technology, and a group of unforgettable characters bring the third installment of Corey's epic space drama (after Caliban's War and Leviathan Wakes) to an action-filled close while leaving room for more stories to unfold. Perhaps one of the best tales the genre has yet to produce, this superb collaboration between fantasy author Daniel Abraham and Ty Franck should reawaken an interest in old-fashioned storytelling and cinematic pacing. Highly recommended."Library Journal on Abaddon's Gate "Literary space opera at its absolute best."io9.com on Abaddon's Gate "[T]he authors are superb with the exciting bits: Shipboard coups and battles are a thrill to follow."Washington Post on Abaddon's Gate "Riveting interplanetary thriller."Publishers Weekly on Leviathan Wakes **Werbetext**The explosive fourth novel in James S. A. Corey's New York Times bestselling Expanse space opera series, which began with the Hugo-nominated Leviathan Wakes
