Von Savannah Stuart, Katie Reus : Claimed by the Warrior (Luminet Warrior Series Book 3) (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Claimed by the Warrior (Luminet Warrior Series Book 3) (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 1 von 1 Kunden fanden die folgende Rezension hilfreich. if you love a good short read, with an alpha male, this is your book Von Claudia Although this is the third book in this series,

it is the first I read but honestly, I don't think that is a problem and this book can be read as a stand-alone without troubles. as this is a novella, the subplot was not very extensive and the development was quite quick but nevertheless I really enjoyed reading it. Although I have to say, this story and these two people would have been worth a whole novel and I would have enjoyed that even more. Leilani is a feisty heroine who thinks quick on her feet and is not easily impressed or intimidated and I really liked that about her. the scene, where she learns that she has to stay is really great and I loved her inventiveness and her honesty during the story. Con is a typical alpha male and I loved every minute of it (although I can understand, how it can be very annoying ... but Leilani coped quite well with that). he seems to be a great leader and a good person. I enjoyed reading about him. all his warriors seem to be interesting characters and I really want to read their stories as well. all in all this was a great story to read, which would have been even better if it would have been longer. nevertheless, I will read the next story in this series, as I want to read about the "mountain tribe" and their males

Kurzbeschreibung Held captive against her will When Leilani travels to the mountain region of her new planet, Lumineta, she discovers the remote mountain clan has a law stating that any unmated female in their sector can be forced to live there for one moon cycle. At first she is livid until she realizes that being held captive means that the warriors bring her gifts and simply try to impress her as part of their courting rituals. But she is not interested in anyone except the sexy leader and living under his roof makes her feel nothing like a captive. He has her rethinking everything she thought she knew about Luminet males. The last thing he needs in his life is a complicated human female. Con has never thought much about taking a mate. As leader of his clan, he is too busy and females are too complicated especially those mysterious humans. But the longer he is around Leilani, the more he realizes she is worth fighting for. Despite his planet's tradition that says two males mate with one female, he has no intention of sharing or ever letting her go. Length: 31,000 words
