**Von Sarah Fine : Claimed (Servants of Fate Book 2) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Claimed (Servants of Fate Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. as good as the firstVon Elodie ColtI didn't have high expectations on this book as this is written not from Eli-Cacy-sight and I'm usually not fond of spin-offs. But again, Sarah Fine has convinced me absolutely. The love story between Galena Dec is beautiful and I also loved the story behind with the fabric of fate and so on. Will certainly read the last book of

the series!

**Kurzbeschreibung**In this urban fantasy, brilliant scientist Galena Margolis is determined to fulfill her destiny and develop the vaccine that could save millions. Yet when Galena's test subjects meet with foul play, it's clear that someone is still determined to stop her, and that Galena herself is a target. As the Ferry empire forges a plan to keep her safe, Declan Ferry, the politics-hating black sheep of the family, steps forward to protect her but the emotional cost may be more than either of them is willing to pay. As unknown enemies close in, it becomes terrifyingly clear that they threaten to destroy not only Galena's lifesaving work but also the very fabric of fate. As Galena and Declan race to uncover the traitor, they also forge a special bond that could save both Galena and those she's sworn to help. Torn apart by the past and hunted by those she trusted, can Galena find room amidst her fears for a passion that could make her stronger than ever? And even if she and Declan can find their way together, will it be enough to keep the future from coming apart at the seams?
