**Von Andrea Bramhall : Clean Slate (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Clean Slate (English Edition):

A story that kept me wonderingVon nschaI really liked the main characters and the story (even if the end was predictable at some point). Morgan (who left her family due to reason we learn later in the book) suffers from amnesia because she a victim of a vicious physical attack and that is where the story starts. Its a story about love and loss, struggle and

surrender. I always wondered how I would cope if I woke up not remembering the last 20 years. What would I do differently? Would I want to remember everything? I'd give the story 4.5 stars (for its predictability). It's well written and Morgan and Erin's struggle totally believable. I couldn't stop reading!

**Kurzbeschreibung** After a vicious attack, Morgan Masters wakes up to find that nothing is how she remembers it. John Major isn't the prime minister anymore, the Millennium has been and gone, and it's been a very long time since she was in college. When Erin's worst fears become reality and her world crumbles around her, she has to pick up the pieces and start all over again. Can losing everything actually be the best thing that ever happened to Morgan? Can Erin learn to forgive the sins of the past and let her heart lead her head for a change? Or is happiness beyond their reach?

**ber den Autor und weitere Mitwirkende** A Stockport (near Manchester, UK) native, Andrea took her life in her hands a few years ago and crossed the great North/South divide and now lives in Norfolk with her partner, their two border collies, and two and a half cats (one isn't sure if she wants to be theirs anymore as the lady down the street feeds her Whiskas rather than whatever is on offer at the supermarket, like they do). Andrea spends her time running their campsite and hostel to pay the bills, and scribbling down stories during the winter months. Andrea is an avid reader and a keen musician, playing the saxophone and the guitar (just to annoy her other half apparently). She is also a recreational diver and takes an opportunity to head to warmer climes and discover the mysteries of life beneath the waves.
