MUST READ SERIES!Von CassandraWOW WOW WOW still totally in awe after I finished over 14 hours earlier!This is so awesome and brilliant and stunning and heartbreaking and hot and emotional and raw! CD Reiss did an outstanding job once again. Wonderful and captivating writing, from the first to the last word. She has a way to write all those feelings that make

you feel them all for yourself, like you are this character. Everything I expected and more, very emotional and very wet-panties hot! The whole SOS series build up into the heartbreaking we went through at the end of Sing. That never felt like the end. There were so many open questions on how they would deal with their new lives and I'm so so glad CD Reiss decided to write Coda. The weeks of anxiety and fear at Sequoia left their marks on both Jonathan and Monica. They have to adjust to their new life with diet, medication and workout routine next to Monica's finally starting career. Both have different fears that are totally understandable and you feel thanks to the wonderful writing. You wish you could help make them feel better. Next to the fear they both experience that something is missing, not right, in their relationship. Out of fear what could happen, they both neglect their natural desires. Thankfully, Jonathan pulls himself together and gets his goddess back where she belongs - on her knees, legs spread wide, naked before him. Jonathan also gets very creative in underlining his ownership. I will never look at bamboo and a sharpie the same way *grins* But even with things starting to get "normal" again, those fears won't let them go. Just as things start to get more smoothly and they both come to terms, tragedy strikes them again. And that part? Oh my... I was a sobbing mess. But does it break them? We are talking about king Jonathan and his goddess Monica. These two are just meant to be. And every stone the universe throws at them only makes them stronger. Great ending of this series! Although I can't see it right now that there won't be more of Jonathan and Monica *sighs* as they take it one day at a time with a limited future and that little bit of hope. It wouldn't have been them if they would get that typical HEA like other books. Because that's not them. They aren't your typical couple. They are special. They will forever and for always have a very special place in my heart. Very very big thank you to CD Reiss for giving us these two and their story. For being such an outstanding writer, so talented.

Kurzbeschreibung THE USA TODAY BESTSELLER The novel-length epilogue to the Submission Series Did you want a pat little ending about me and Jonathan riding off into the sunset? Did you want flowers and stars? Man, I wish it was all soft filters and violins. I wish we could fight about who cleaned the bathroom or who was cooking dinner. But I knew I was never destined for simple contentment. I almost committed murder for him. I almost tore us apart to save him. How do you get back on the horse after that? Because, I promise you, nothing is the same. Nothing. I've earned our happily ever after.
