Nice idea... that didn't work outVon CustomerMaybe it's just because I know a little about computer science but for me there were too many explanations missing. Details were not presented in a lively way and often I could not visualize the situations easily. In addition I could not really connect to the characters, I was just reading the story without really caring what would happen to them..Anyway the idea about artificial intelligence taking over is nice.0 von 0 Kunden

fanden die folgende Rezension hilfreich. GrahamalbaVon GrahamalbaHaven't read any SCFI in years. It was nice to find out it still thrills me to read about future times. This was a really good read, the suspense when Gez was chasing codes in his mind was brilliant. Kept me interested till the very end and looking forward to the sequel.0 von 0 Kunden fanden die folgende Rezension hilfreich. Nice, but could be betterVon Mr.XSometimes hard to read (for a non native English speaker) because of too much slang language. And there's too much action stressing the reader.

Kurzbeschreibung"The best science fiction series I've read in years. Reminds me of William Gibson, but with more action and grit. I love Code Breakers!" -- Jason Burke, New York SF er.The Code Breakers series has been downloaded over 1,000,000 times.Description:In a post-apocalyptic future, humanity survives within a single city run by a shadowy benefactor known only as The Family. Each week the death lottery claims more lives and Gerry Cardle, head of the lottery, inexplicably finds himself next on the list. Something's wrong with the system. A deadly artificial intelligence has breached security. Gerry has just 7 days to live. Forced off the grid, Gerry has to do the unthinkable: willingly leave the city. What he finds in the abandoned lands will shatter his perception of what it means to be human. Everything he had been told before was a lie. In a deadly world of conspiracies, Gerry has to sacrifice everything he loves in order to save it, and time is running out. For fans of Blade Runner, Logan's Run, and The Matrix. *** Get the rest of the series with these links ***Book 2 - Beta: <http://www.com/dp/B00FH5ZPRG/Book 3 - Gamma: http://www.com/dp/B00HGKMZSW/Book 4 - Delta: http://www.com/dp/B00O04INQK/>Kurzbeschreibung"The best science fiction series I've read in years.
