I've always been interested in anything that has to do with ESP. The main character, Ronica, has Class A talent, which allows her the ability to look into a person's mind, as well as direct and control their thoughts. Ronica also experiences a number of emotions. They change constantly, ranging from hate to love, from sadness to anger. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A shining star in

Sci-Fi Von bander@mindspring.com Fantastic book! I've read it many times, and always anticipate the next page as if I were reading it for the first time. I have not read the sequel yet, but can't wait to follow the ongoing story.

Kurzbeschreibung The Sting was what made Ronica McBride special that, and the years the interstellar government called the Com had invested in teaching her how to use it. Class C talents could use the power called gathering to control their own bodies; the less common Class Bs used pathfinding to alter the inner workings of mechanical things; but only the rare Class A could use the Sting and it was that unparalleled power over other minds that made Ronica the most valuable resource in the Com. Newly graduated and ready to use her Class A talent, Ronica McBride should have had the worlds at her fingertips. But instead she was lost on an unknown planet, hurt, alone, with no memory of how she had gotten there and she had lost her Sting. Gathering and pathfinding were tools, not weapons. Without her Sting, Ronica could not stop the Stonehouse dwellers who rescued her from promptly trading her away to the chief of a primitive tribe. And as Ronica struggled to find a place for herself on the wilderworld, accept her loss of talent, and regain her missing memories, she began to discover that everything the Com had taught her was a lie... "Commencement... fits into the established niches while at the same time ringing new changes on what readers might think are standard themes." *New York of Science Fiction* "Roby James writes with passion and intelligence." Jack McDevitt, Nebula Award Winner "Look out, Robert Jordan!" Barnes Noble Booksellers
