Confessional Von Ein Kunde Completely scandalous. Judith Roycott has painted a very decadent picture of the Church and its Priest. It explores the sexuality of priests whose soul purpose should be that of purity and abstinence. Faren Lonsdale, the heroine, is a reporter that infiltrates a seminary for young men who are supposed to be learning to forsake earthly pleasures. She has to decide whether or not she is going to tell all or stay and enjoy the seminary's sexual intrigues. This book was beautifully written but not for those who make think this type of work sacrilege. 0 von 0 Kunden fanden die folgende Rezension hilfreich. The Confessional Von Book Girl I have been reading black lace novels for ever and i simply found this one to be an overkill. There was too much sex between so many characters (most of them being priests) that I was often confused by what she, the main character was really doing--trying to experience all the sexual delights, or write a story for the tabloid "splash." I felt the the writer focused too much on trying to shock then on trying to stimulate. If you are looking for a good black lace that expresses actual emotion I suggest trying Emma Holly or Ella Broussard

Kurzbeschreibung Faron Lonsdale is an ambitious young reporter, always searching for the scoop that will rocket her to journalistic fame. In search of a story about celibacy she infiltrates St Peter's, a seminary for young men who are about to sacrifice earthly pleasures for a life of devotion and abstinence. What she unveils are nocturnal shenanigans in a cloistered world that is anything but chaste. And the high proportion of good-looking young men makes her research all the more pleasurable. But will she reveal the secrets of St Peter's to the outside world, or will she be complicit in keeping quiet about the activities of the gentlemen priests? Pressestimmen "They're written especially for women so will hit the right buttons." (Maxim) Werbetext Black Lace: the leading erotic imprint for women
