**Von J. D. Robb : Conspiracy in Death (In Death, Book 8)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Conspiracy in Death (In Death, Book 8):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. The series continues to get better and better!Von Ein KundeIn this latest installment of the saga of Lt. Eve Dallas, a

homicide detective, is confronted by a series of baffling murders -- someone is killing the "dregs of society," the homeless, prostitutes: people who the killer or killers think won't be missed. In each case, the bodies are found missing vital internal organs. The case is further complicated by a cop named Bowers who has an intense and irrational hatred for her. This book continues to reveal pieces of Eve's past. I hope that in subsequent installments we'll find out about her family. One immensely satisfying part of the story is Eve's relationship with her husband, the gorgeous, enigmatic, and passionate billionaire she first suspected of murder. I love the role reversal in their marriage, and how their love not only smooths down her rougher edges, but transforms him. I'm was grateful to see the redesigned cover. It's less exploitive and more interesting. However, the author and her readers are not well-served by sloppy proofreading. This is an ongoing problem which I hope the publisher will take steps to correct. New readers: please read the books in order from beginning to the current ones. You will be DELIGHTED!!

Laughlin Conspiracy In Death brings us back again to the world of Eve Dallas, and as always J. D. Robb/Nora Roberts gives a satisfying read. But more than that, Conspiracy marks the beginning of an upwards climb in the series. In Conspiracy, followed by Loyalty In Death and Witness In Death, Robb gives the characters we know and love new depth, making us, if at all possible, love them more. In addition, Robb begins to break away from what was threatening to become a formulaic plot, that of a mentally disturbed person who kills because he or she enjoys killing. She begins to give her villains motives other than insanity, and keeps the series from becoming an endless repeat of the same plot, predictable and stale. Conspiracy, Loyalty, and Witness are new ground, and I hope the trend continues with Judgement and the next books.

1 von 1 Kunden fanden die folgende Rezension hilfreich. Hard to Put Down Von Ein Kunde Just like the other seven, I hated to put the book down. J.D. Robb writes a story that grabs you at the beginning and you can't let go. I came across a review of Rapture in Death and Naked in Death on and decided to buy the whole series this summer. While reading one story, it was nice to know that I had more to read, but now I am at the end and I am going through withdrawal. Can't wait for my copy of Loyalty in Death to arrive. I love the characters of Eve Dallas and Rourke and the subcharacters (especially Peabody and Mavis). You get so involved with them - like you know them. Great work Ms. Robb (Roberts), I hope you have a lot more of these stories planned.

Kurzbeschreibung In a future where human nature remains as predictable as death, a killer plays God and puts innocent lives in the palm of his hand in this novel in the #1 New York Times bestselling In Death series. With the precision of a surgeon, a serial killer preys on the most vulnerable souls of the world's city streets. The first victim: a sidewalk sleeper, found dead in New York City. No bruises, no signs of struggle. Just a laser-perfect, fist-sized hole where his heart had once been. Lieutenant Eve Dallas is assigned to investigate. But in the heat of a cat-and-mouse game with the killer, Dallas' job is suddenly on the line. Now her hands are tied...between a struggle for justice and a fight for her career... From the Paperback edition.. de Streetwise cop Eve Dallas and her trusty sidekick Peabody face a methodical killer in this latest addition to the In Death series by J.D. Robb, better known as the bestselling author Nora Roberts. In the late 21st century, on the streets of New York City, a street sleeper is found murdered, his diseased heart removed with surgical precision. His death would typically drop to the bottom of a list of senseless and inexplicable killings, but Lieutenant Dallas, who "would stand for the dead and the living," is not about to let that happen. When her research uncovers similar crimes in several cities that were dropped under mysterious circumstances, Dallas knows she's facing a killer cruel enough to prey on the weakest in society and powerful enough to conspire an extensive coverup. To complicate matters further, Dallas faces an equally troubling threat to her career when she's linked to the death of a fellow cop. Now she must fight to restore her good name as well as track down the killer. In Conspiracy in Death, Roberts creates a futuristic world of evil that Eve Dallas negotiates through tough talk and brute force. While Robb crafts the crimes with great care, she assumes a familiarity with the characters that new readers will lack. But fans of the In Death series and newcomers alike will enjoy the thrill of the chase as Eve Dallas sets out to get her man. -- Nancy R.E. O'Brien.com
