Von Rebecca Zanetti : Consumed (Dark Protectors) before purchasing it in order to gage whether or not it would be worth my time, and all praised Consumed (Dark Protectors):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. enjoyed it the whole time Von Little M At first, I thought, I was reading the books in the wrong order, as 10 years have gone by between the last book (story about Conn and Moira) and this book. But Janie needs to get older - right? And it's

written really great, so you don't feel like missing something. This book is about the shifters - Jordan and Katie. Katie has been in love with Jordan since forever. But he still thinks, all she's feeling is a crush. After he's infected with the virus, too, Jordan tries to settle his accounts. Which also means, to bring Kate back to safety. If she wants to or not. But Katie doesn't want to give up trying to save Jordan and they finally accept their true feelings for each other. I really loved the story, like I did with the previous ones. And I really enjoyed, that this time, the female wasn't trying to prevent the marking (the bond between Vampires / shifters / etc, that binds them for eternity). Sure, the male struggled this time, but it was not for the same reasons as it was in the 1 (Talen and Cara), 2 (Dage and Emma) and 3 (Conn and Moira) book, when the femals tried to make a point by not wanting to be mated because they needed to prove themselves independent. What I thought a bit overkill was, that there was not one stalker after Kate but acutally three!! But still, great book and I cant wait to read the next books of the series. So far, after the first five books (if you also count the novella about Max), the dark protectors series makes up one of my most most favorite series ever. If not even the best. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Nice setup but sorely lacking in character development Von Customer Being a compulsive romance reader I found myself unable to pass this paranormal romance by. The setting and reviews were pretty nice. Unfortunately after a really cute an touching prologue I found that the book is mainly focused on action and fairly brutal sex scenes. There isnt really any character development. Or maybe there is, but we dont really see any of it. The hero tries to keep his distance from the heroine but then just gives in. The reasons for staying away seemed flimsy (the heroine was too young at over 30???) And throwing those reasons over board seemed unmotivated as well. I read another book from the same series and had the same problems with it concerning the character development. A real pity, because the blurbs were very interesting!

Kurzbeschreibung Dark Protectors - Book 4 Sometimes You Mate For Life Katie Smith is the best of her class, part of an elite hunting force trained to eliminate werewolves from the hills of Western Virginia. She's good at it because she has the kind of focus and drive that won't back down no matter how steep the odds. Call it southern sass. Whatever it is, there's no denying her willingness to risk everything for the only man she's ever cared about--a man on the verge of losing his very humanity. . . Sometimes You Mate To Stay Alive For the past ten years Jordan Pride has dedicated his life to protecting his people from a deadly shifter virus. But in a rare moment of distraction, Jordan's guard drops just long enough for his fate to take an irreversible twist. Unless the woman he loves surrenders everything to him, again and again, under a full moon rising. . ."Hot and fast from beginning to end." --Kate Douglas on Fated "Paranormal romance at its best!" --Cynthia Eden 86,000 Words.
