Von Tracie Peterson : Controlling Interests before purchasing it in order to gage whether or not it would be worth my time, and all praised Controlling Interests:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A powerful story of faith and integrity overcomming evilVon Logan WrightThe story of a talented young woman whose parentage and family is shrouded in deep mystery and lies. With faith in God she struggles against almost insurmountable odds to discover the truth about her past and to overcome the almost total domination that is over her.

Even the man she begins to love seems to be a part of the evil. This is quite a facinating story based on integrity and faith in God.

Kurzbeschreibung Can reconciliation occur when the betrayal has been so great? The past has harbored guilt and fear for Denali Deveraux, a successful young woman who finds that her desperate attempts to understand her beginnings may forever be shrouded in mystery. Her grandfather, Richard Deveraux, has manipulated her life with actions that clearly reveal his disdain for her, and her beloved aunts the only ones who may possess the truth remain pawns under his control. Her question to learn about her mother, the once-adored daughter of Richard, brings her to Dallas, where she is forced to work on an account for the family design business. Here Denali finds herself teamed with Michael Copeland, a man whose eyes reveal an impenetrable pain of their own. As Denali and Michael are trust into their work, their personal lives become inevitably entwined until each discovers that the future may hold a promise

Kurzbeschreibung Can reconciliation occur when the betrayal has been so great? The past has harbored guilt and fear for Denali Deveraux, a successful young woman who finds that her desperate attempts to understand her beginnings may forever be shrouded in mystery. Her grandfather, Richard Deveraux, has manipulated her life with actions that clearly reveal his disdain for her, and her beloved aunts the only ones who may possess the truth remain pawns under his control. Her question to learn about her mother, the once-adored daughter of Richard, brings her to Dallas, where she is forced to work on an account for the family design business. Here Denali finds herself teamed with Michael Copeland, a man whose eyes reveal an impenetrable pain of their own. As Denali and Michael are trust into their work, their personal lives become inevitably entwined until each discovers that the future may hold a promise Synopsis Explores the confusion and loneliness experienced by Denali Deveraux as she faces career success, but a personal identity crisis when her only living relative--her grandfather--refuses to have contact with her even though he is her employer and legal guardian.
