Von Emma Holly : Cooking up a Storm (Black Lace) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cooking up a Storm (Black Lace):

Kundenrezensionen Hilfreichste Kundenrezensionen 4 von 4 Kunden fanden die folgende Rezension hilfreich. Do It Again-Please! Von Customer This was one book, where I was interested in the plot along with the very entertaining sex

scenes. I hope Emma Holly will create a sequel to this book. I loved the way Storm was very at home with his own body. I also loved the way he brought out the heroine's own sexual feelings but at the same time fulfilled his own fantasies. I think if my husband was this much fun, all I would want to do is stay in bed. I have read about 50 of Black Lace's books and I am a very harsh critic, but this book was so good I've read it a couple of times. If there is a sequel I will be the first to buy. 2 von 2 Kunden fanden die folgende Rezension hilfreich. Emma does it again! Von A. Marina Fournier I'm picky about my erotica. I expect all that I expect out of my usual fiction PLUS hot sex tailored to my kinks. This woman keeps writing erotica far beyond most authors in her field--and she's not trying to be literary or elegant or Moral-of-it-all--she's always taking interesting people, interesting situations, throwing them together, and making them hot. No innocent is betrayed, everyone in the right gets their jollies, and there's actually ordinary human interaction here. No artificial constructs, nothing yells "Staged!". I will read what this woman writes. However, this just happens to be almost as good a story as Menage. I happen to be a foodie, so this is up my alley. I am not likely to run a BB myself--way too much work, but they're fun to read about. It was a lot of fun watching Storm conquering his own shadows, and squirming when he needed to realize he wasn't running things, but still achieve an HEA, after several steamy scenes. 1 von 1 Kunden fanden die folgende Rezension hilfreich. A man's pleasure: hot food and hot women Von Magritte This is my first book by Emma Holly. I have been curious about this after a short story I read. Storm Dupre is a cook who wants his own restaurant, when he discovers a small Inn looking for a cook he decides that this will be his place soon. Storm is the type of guy who enjoys the pleasures in life such as good food and hot women. When he manages to get himself hired at the Inn he also decides to seduce the owner: Abby. Together they spend exiting time together exploring each other's pleasures to the full. I do like to read erotic novels from time to time when I am in the mood for it. Here I have to admit that there were a little so many sex scenes and too little plot, or rather an inconsequential plot. What also disturbed me is that on my opinion there is too much sex and too little romanticism in today's world. I like carnal desire, combined with deep love, then I am ready to accept nearly everything that brings physical pleasure into the main characters' couple. I definitely had too little feelings, sharing, getting to know each other.... The book is however an easy read, with some funny moments and interesting characters. If you like very well written sex scenes and do not mind when the story itself is a bit scarce you will enjoy this book. Enjoy the read MBTM

Kurzbeschreibung The Coates Inn restaurant in Cape Cod is about to go out of business when its striking owner, Abby, jumps at a stranger's offer of help - both in her kitchen and her bedroom. Storm, a handsome chef, claims to have a secret weapon: an aphrodisiac menu that her patrons won't be able to resist. It certainly works on Abby - who gives in to the passions she has denied herself for years. But can this playboy chef really be Abby's hero if her body means more to him than her heart, and his initial plan was to steal the restaurant from under her nose? Storm soon turns the restaurant around, but Abby's insatiable desires have taken over her life. She's never known a guy into crazy sex like him before, and she wants to spend every spare moment getting as much intense erotic pleasure as she can. Meanwhile, her best friend Marissa becomes suspicious of the new wonder-boy in the kitchen. Before things get really out of control, someone has to assume responsibility. But can Abby tear herself away from the object of her lustful attention long enough to see what's really going on?
