Crown: A seventeenth-century historical drama (An English Civil War Novel):

KurzbeschreibungThe compelling sequel to the English Civil War novel London in Chains - It is 1648, and the Civil War has been resurrected by a king still determined to be an absolute ruler and a parliament unable to agree how to govern without him. Blacksmith Jamie Hudson, weary and disillusioned, is forced to re-enlist, leaving his wife Lucy to struggle on alone in London: printing newsbooks, dodging the censors, and all the while supporting the Leveller demands for democracy and freedom, and hoping for a peace that will finally allow the two of them to be together again.

ber den Autor und weitere MitwirkendeGillian Bradshaw's father, an American Associated Press newsman, met her mother, a confidential secretary for the British embassy, in Rio de Janeiro. She was born in Washington DC in 1956, the second of four children. They didn't move around quite as much as one might expect after such a beginning: Washington was followed merely by Santiago, Chile, and two locations in Michigan. Gillian attended the University of Michigan, where she earned her BA in English and another in Classical Greek, and won the Hopwood Prize for fiction with her first novel, "Hawk of May". She went on to get another degree at Newnham College, Cambridge University, England in Greek and Latin literature, and she sold her first novel while preparing for exams. She decided to stay in Cambridge another year to write another novel and think about what to do for a Real Job. However, while there, she discovered she could live on her income as a novelist and also met her husband, who was completing his doctorate in physics. Between books and children she never did get a Real Job, and she's been writing novels ever since. She and her husband now live in Coventry. They have four children and a dog.
