BRILLIANT STORYVon Sibyl MoryIn this exciting sequel, Gale and Ripley are still pursued by FBI and Vatican agents, following the discovery of artifacts that would negate accepted theories on evolution and early civilizations.

Presidential candidate, Senator Monroe, with whom Gale once had an affair, also gets involved. The book is a thrilling account of Gale and Ripley fleeing capture and killing, just about managing to keep one step ahead... Or do they? Is there a traitor close to Ripley, and who could it be? And who is Ripley? Is he connected to a figure from the past, the complete antithesis of what he is now? And who really is Gale? These artifacts are a technological marvel that the whole world is after, with the fear a world war could result in the fight over them. This great story blends together personal drama and cosmic events in a way that will keep you enthralled and guessing to the end. Brilliant stuff. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Prima Von Christoph Fischer Cosega Storm by Brandt Legg picks up where Cosega Search left us, a cliff hanger moment in a breath-taking archaeological conspiracy thriller. Discovered artefacts that suspend established beliefs become the object of a hunt by press, government bodies and the Vatican. Our heroes continue their escape from these forces while trying to find out more about the artefacts and what they really mean. This wouldn't be written by Legg if it didn't have some deeper undertones and wonderful characters, both good and bad, and very clever writing. Written with great suspense, gripping action sequences and a fascinating background about the discoveries the book really never loses its momentum and leaves us with yet another staggering ending. Very enjoyable. 0 von 0 Kunden fanden die folgende Rezension hilfreich. An enigmatic scratch into the reader's soul Von Peter Martin Cosega Storm (The Cosega Sequence Book 2) by Brandt Legg Yet another superb novel and sequel, the "Cosega Storm (The Cosega Sequence Book 2)" from Legg. The pages of this well-written book flow very well and breathe an enigmatic scratch into the reader's soul throughout the story. Mystery, conflicts and secrets tease the outcome of future events through Gaines and Asher in this wide-spreading and reaching plot. A wonderful 5\*\*\*\*\* read!!!

Kurzbeschreibung Cosega Storm continues from the frightening final seconds of Cosega Search, the series first book. Gaines and Asher, caught in a storm of deceit, corruption and power, desperately struggle to escape. But running isn't enough. They must piece together the mystery of Clastiers life, understand the incredible artifacts, and somehow discover what links them all together. What really happened in the past, and how will it change the future? As each extraordinary secret of the Eysen is revealed, the danger escalates. The more Gaines learns, the less he knows who he can trust. But his most difficult challenge is the paradox of the Cosega Sequence. Failing to decode it in time will cost him his life, yet succeeding means he must die. Discover enough of the past . . . you may just destroy the future.
