She is beautiful, has an incisive mind, a soul who loves justice and comes from a high-society pedigree background. Only problem, she has made lousy choices in boyfriends. An up and coming attorney in Palm Beach, Florida working for the U.S. Attorney General's Office, she made the first mistake falling for Harold Lowell. In his bid for the office, he accepts illegal campaign contributions. The second mistake she made - in Harold's eyes as well as many of her co-workers - she turned Harold in for committing the crime. This saw her fired. Now she is rebuilding her career in the private sector, forming a firm with her two friends Carling Dent and Nichole Sterling - The Law Offices of Dent, Rochelle and

Sterling - and she is embarking on her first case. Only the stigma of her turning evidence, along with a long-ago mystery of the disappearance of her grandfather and grandmother - with the grandfather a judge who supposedly took bribes - Kate has a hard road ahead of her. Now she thinks of herself as a hired gun. When someone does you wrong, you cannot take the law into your own hands and have a shoot-out at high noon - you hire her to be your 'gun'. It's a case everyone wants Kate to turn down for different reasons. The first to approach her not to take the case is her Aunt Hilary. She is really Kate's great aunt but prefers to be called aunt because it makes her younger sounding. A woman, Grace Roberts - assistant to her aunt - has been murdered. She was helping work on the restoration of the old court house when she was killed. Lloyd Sibling, the project coordination has been arrested for her murder, though Kate refuses to believe this. Lloyd is not the type to kill someone, especially when the reasons for the murder was Lloyd and Grace were having an affair. Kate knows Grace was planning a high-powdered, big-money engagement with a drop-dead gorgeous CEO and would not waste time own meek Lloyd. Next pressure comes from her uncle Colin. Colin insists Kate has never had a murder case before, and since this involves the death penalty, he believes Kate is putting Lloyd's life at risk. Then her godfather, in the running for the Supreme Court, approaches her about how the high profile case might adversely affect his chances. All this does is make Kate more stubbornly determined to see Lloyd gets a fair trial. Suddenly, odd things are happening to Kate. A mugger mugs her trying to steal her briefcase, yet doesn't try to take her laptop. Then someone breaks in the room where Grace was killed. The very chambers where her Grandfather used when he was Judge and vanished from decades ago. Kate knows there is no such things as coincidences. With sexy private detective Gabe Chavez at her side, Kate is lured deeper and deeper in the mystery of Grace's murder and the death of her Grandfather, which is somehow linked. I loved Nora's *Pride* written by Stephenson for *Silhouette Intimate Moments*. It was a beautiful loving romance that left me eager for more from this writer. I am delighted to finally see another book by her and a marvelous one that catches you from the first page and doesn't let you down. Kate and Gabe sizzle! You might want to wear ovenmits for this one. But it's Stephenson's legal background that adds so much to this story. She brings Kate alive with such rich detail. This is one you won't be able to put down from start to finish. It just doesn't get any better than this. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Pick up your copy and RUN! Von Detra Fitch Katherine "Kate" Rochelle has been in Palm Beach's social elite since birth. She has had money all her life. For her career, she became a criminal defense attorney. Scandal hit when Kate learned her co-worker was on the take. Kate could not let such illegal matters go and dutifully turned him in. Kate is as honest as her grandfather (a judge) had been before he disappeared from his court chambers in the old courthouse over thirty years ago. However, her honesty makes the other lawyers antsy, especially those who believe Kate should have turned the other way. So Kate made her own law firm and is out to prove herself all over again. Her first case is to prove that a friend, Lloyd, did not murder Grace. Grace Roberts had been murdered in Kate's grandfather's old chambers. Since Kate does not believe in coincidences, she begins looking into a possible connection. Kate's partners, Carling and Nicole, hire a P.I. named Gabriel "Gabe" Chavez to assist her. It does not take long for Kate to realize that her life is in danger. The evidence is beginning to look as though someone high up is the culprit. Kate's debutante skills and social connections help her get some answers. Yet only Gabe's P.I. and police skills can keep her alive. ***** This story seems to be the first of a trilogy. At least, I hope Kate's partners each get their own stories. What? You say that you demand lots of action? You want suspense AND some romance as well? Then pick up this novel and RUN! Otherwise, you may not get your hands on a copy. Once readers begin talking about this title it will fly off the shelves. Excellent legal and mystery drama. ***** Reviewed by Detra Fitch of Huntress Reviews.
