Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Refreshing! Von Nina Cover to Covers is a heartwarming and touching second chance romance - I enjoyed every

sentence of it. It is realistic, honest and very refreshing. This is one of the rare books where the main characters are not in their twenties and just gotten adult but instead are in their prime - mature and experienced. You don't see that often nowadays and I admire Alexandra Weis for having the guts to write a book about mature love. Tyler is the CEO of a successful petroleum company. With the money, power and all the women at his feet you would assume he has it all to be happy. But instead there is emptiness inside him, longing to be filled. Now it's on Tyler to find out how. Enter Monique Delome. She is the only woman who ever saw the real Tyler a long time ago and still loved him. She is the only woman he could never forget, no matter how many years had passed ever since he had let her slip away. More than 20 years after their breakup they accidentally run into one another in Texas at a book signing event Monique is attending, as she is a successful romance writer now. With her heart torn apart by Tyler once, she refuses to let any other man in again - let alone this man being Tyler once more. Instead, she decides that it is safer for her to put all her love and passion into her writing. But what is it that all her male main characters seem to feature some of Tyler's characteristics? Coincidence? While Monique is trying hard to stay away from him, Tyler is determined gain a second chance for them both - and this time he won't let her go...***I loved this book for so many reasons!*

* The whole plot is very deep and intriguing, dealing with some heavier issues carefully but without beating about the bush.* Both main characters were loveable and - that's very important to me - believable. You could feel their pain and really imagine them living in the real world.* The fact this story being about an author - an author who puts the man/love of her life into her books - even made it more interesting.* Despite being wealthy Tyler doesn't display it that much - yes, he buy Monique presents (and that's a good thing), but he is not overdoing it as many of the other CEOs do.* The story is told from Tyler's point of view. I always love to read about a man's thoughts and feelings.* Oh, and the story partially takes place in New Orleans - I love this city and the book fed my desire for visiting it tremendously! I recommend this book to every romance lover out there who can deal with a deep and mature love story! :)4.5 beautiful stars!
