Fanfiction in a bookVon S.G.well... in one world, this is Supernatural-SoftP\*\*n. The author is all about who is

attracted to whom, which dude had which girl and how badly everybody wants Dean to get laid (even Bobby...please, really?)The book starts with a bunch of mexican immigrants getting slaughtered by a borderwalker. Do we get a closer inside there? NO, but we can read how the head of the US border control team is only thinking about his hot colleague (banging her in the ammunition room if they have the time after the arrest) before herself and the officer get ripped to pieces (even dead on the ground he compares her to how she looks when they are having sex)I don't mind a bit of excitement and sexual tension. But this is just too much. Dean is head over heels for the female main character, so is she for him and Sam (soulless Sam) is encouraging his brother. When Dean doesn't jump the girl the first chance he has, Sam tries his luck only to walk away with two mexican prostitutes while Dean is struggling for his life because a souleating knife has nicked his hand.Cas has a 5-line appreance only to tell the boys he can't do anything (I hope Misha Collins still get some money for this) and then it's back to Dean and his frustrating sexlife.Then they have a teenager joining their wild goose chase through Mexico and of course she falls in love with Dean and turns into a knifewielding, gun shooting hunter because "Dean likes tough girls" was whispered in her ear when she didn't stop crying. (Her dad just get killed, but I'm sure you get over that in 2 seconds)Okay, let's focus on the good and the bad things:Good: I really liked the idea. The monsters are well created, a lot of ancient Aztec gods and lore is presented.Bad: \*the female character. Don't get me wrong I like a kick-ass hero. Jo, Charly, Ellen... but this girl is not only a hunter, she is the mexican slayer. And this does not work with the Supernatural boys\*the 2.female character: her dad is dead and she just walks off with the people who stormed her house? No words are lost about why she trusts them. If all it takes is Deans look to forget your dead dad... shallow much?\*Dean...I love Dean. He is snarky, he is fun. In this book he is just thinking about how hot the slayer is and that he can't do anything because he would betray Lisa. He gets cut with a knife, his soul is poisoned and all he worries about is that the room he is currently lying in naked (to get healed of course) is so cold that his manhood is not impressive...And honestly I leave it with this... it was a fun read but I've read better stories on fanfiction pages.0 von 0 Kunden fanden die folgende Rezension hilfreich. One of the best Supernatural novels!!!Von KundeSo I have been into all the Supernatural novels lately and I've been all over them :) This one right here is the one you should definitely get if you can't make up your mind. The plot is great when it comes to the whole hunting business and is perfectly accompanied by some nice "in character" side quests ;) I won't go into detail on the plot because I hate spoilers but this novel has it all: heartache, humor, scariness and the special spark - so what are you hesitating for?? :P Get it, read it, be happy about it :)0 von 0 Kunden fanden die folgende Rezension hilfreich. Top!Von little wolfDie Bcher sind fr jeden Fan der Serie ein Muss. Sie sind genau im Ton der Serie gehalten und geben die Figuren richtig gut wieder. Spannend sind sie dazu auch noch! Top!
