An absolute keeperVon SusiSunshineWhen Carolyn Crane told me how much she adored Jill Sorenson novels and even compared her to Megan Hart, I couldn't hold myself back and bought 2 of her backlist titles. I started Crash Into Me

and I read this 400+ pages novel in under 24 hours. It just took me so long because of the evil job and OMG I'm in love. Crash Into Me is such an emotional and suspenseful novel that I found myself at a loss for words. Some books are just that good that you have to tell everyone about them and I think this is one of those for me. I didn't plan to review it but I can't seem to concentrate on anything else so I just have to get it out of my system. What made this book so special to me? 1. The whole structure of this suspense novel is rather unique and highly intriguing. It's not the usual one romance per novel- we actually have 2 love-stories in this one. I loved how the focus varied but never highlighted one plot line too much. The balance between all the stories and subplots was perfect. Never did I have the urge to skip some pages to get to the "good" part. Everything just fit together. 2. The characterization in this book was also perfect. I love when an author gives us such an insight into their characters but doesn't make it too subtle. I hate when we are thrown from one internal discussion into the next. It has to fit the story and shouldn't feel forced. Sorenson did just that and so much more. I can't remember many books where I felt such a deep connection to the characters. They were shown in so much detail they actually jumped off the pages for me. 3. The story itself was really sad but all the rather "heavier" topics were handled with so much love and care that you just couldn't look away. This book forces you to keep reading even when you think that you would prefer not to read about this. My heart still hurts when I think about parts of this story. But on the other hand we have those moments full of love which balance out the sad parts. 4. In addition to #1 I have to admit something. I know I'm one of those big YA deniers who just out of protest don't read this genre and here I caught myself adoring a YA plot. It just totally blew me away but I'm also sure I wouldn't have liked it if it would have only been YA. I think the mix totally does it for me. 5. I'm not a huge suspense fan but Crash Into Me kept me on the edge of my seat and I may have mentioned this before, I couldn't put it down. The plot was never too prominent or pushed the romance into the background but it was always there, reminding you that something horrible happened and you could already feel the doom approaching. And yep I didn't see the end coming. As you can see I loved this book- it had everything I love about books and so much more. I had high expectations and this book didn't disappoint at all- it exceeded everything I could have imagined before I started it. LOVED it! If you haven't read this author I urge you to give her a try- I was blown away and I hope you will be too. And yes, I already started my next Jill Sorenson novel. *g*
