**Von Sarah Mayberry : Cruise Control** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cruise Control:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Emotional and hot - a great readVon CassandraIn her second Blaze novel Sarah Mayberry has worked out some minor flaws her first book was suffering from. Her story now flows much smoother. And everything I liked about her first

book is still there: likeable characters, great love scenes, and real emotions. Im sick and tired of all the Blaze books that revolve solely around sex. Sure, readers expect a Blaze to be hot. But why cant I have red hot love scenes AND emotional depth? Well, obviously I can because Sarah Mayberry delivers just that! Anna Jackson has changed her life since she overcame her breast cancer. She quit her job with a law firm and opened up her own business, offering limousine service for big companies. She made a list in the hospital of all the things she wanted to change in her life if she survived. But some things on that list are still untouched like being more adventurous and having more passion in her life. When she meets Marc Lewis, the owner of a computer company with dark chocolate-eyes and a sexy bedroom voice, who booked her limo service, she feels an instant attraction to him that he seems to return. But having a one-night-stand or even a fling, no strings attached, is nothing Anna has ever felt comfortable with. Her long missing passion seems to catch up with her with a vengeance, though, and before she knows it shes having some pretty wild (and adventurous) encounters with a man she knows almost nothing about. When they start an affair she has a hard time remembering the rules: dont stay overnight, ask no personal questions, and never, ever fall in love. I absolutely adored Annas gay, younger brother who plays an important (and hilarious!) part. Hes a cutie! His quips had me grinning throughout the book. This one is without a doubt one of the better Blaze stories and well worth its money. I will definitely keep my eyes open for Ms. Mayberrys next book!

Kurzbeschreibung What good is a second chance if you don't take a risk? That's what limo driver Anna Jackson asks when the seriously hot Marc Lewis climbs in her car. She's changed her looks, her career and now it's time to shed the conservative habits of a lifetime. And seducing Marc is the best way to do that. Sure, he's her client--sort of off-limits--but she's not wrong about the invitation in his eyes. All she has to do is remember three simple rules--never stay overnight, make no plans for the future and never, ever talk about emotions. Once they hit the sheets, however, the rules aren't so easy to follow. And once they spend the night, can feelings be far behind?
