IntriguingVon AnelavaIn "Cursed" Lizzy Ford brings the reader to the world of voodoo. It's a dark and a bit creepy

book, thanks to the 400-year old curse hanging over the main characters. Adrienne St. Croix moves to New Orleans to live with her father and find some answers about the disappearance of her older sister Therese. Her family has been plagued by an ancient curse that has killed every firstborn in the family. When the mark of the curse appears on her, the idea of being in the city where a voodoo gang and a serial killer rule the back alleys starts to be more than simply scary. But on her quest to find the answers Adrienne is not going to be scared away. Neither by a voodoo gang leader, nor by a zombie, nor by the Red Man. Belonging to one of the four original families of New Orleans, Adrienne is a promising powerful mambos. Jayden, on the other hand, doesn't believe in some voodoo fairy tales. But the past and St. Croix curse find their way into his life and make a believer from a non-believer. The attraction to Adrienne gets stronger, and the more Jayden gets involved into her life, the more he discovers about himself, his abilities and his family. A skeleton key- a family legacy- is given to him, and a dark family secret is revealed. Rene, a spirit seer and a voodoo gang member, is asked to protect Adrienne. Due to his brother's actions and dark magic, his family and he also get involved in St. Croix curse, thus bringing the main heroes together. The kind-hearted warrior is not afraid of the darkness and the horrors it may bring. Secrets will be revealed, people will show their true selves. And the only question is whether our heroes and the world with them will manage to survive the darkness and the curse. I find the book very intriguing. First of all, the whole voodoo aspect sounds very interesting. I don't know much about voodoo, but the author made it pretty easy to understand. It gives the book this dark and creepy vibe. Throw some family legends and dirty secrets, and it's an exciting book to read. I like the characters: they are very authentic. Jayden is awesome, though a bit dense in his denial. Adrienne is sweet and strong. I couldn't really connect to Rene, though he is this typical bad guy (with a good guy inside). The one thing that I really hate is the love triangle. Adrienne is torn and it drives me mad ;) It is a captivating story with likable characters (though I have to say I found the previous version better) and I'm looking forward to read about the rest of their quest. **ARC provided in exchange for an honest review
