collection Von Hoener, Birgit Loved it, absolutely loved it. I buy these books mainly for the ".in Death" stories, but as this is the fourth or fifth, I've come to appreciate the other authors contributing to the stories in this book very much. The extraordinary thing in this one was the fact that each novella is - loosely - based on a fairy tale. How the authors did that is - plain and simple - just absolutely brilliant. I am now almost looking forward to these shorter stories as much as as the next Eve Dallas novel!

Pressestimmen Fairy tales are the inspiration for this year's splendid edition of the annual anthology from this most talented quintet. Once again the tales range from historical to futuristic, with each delivering an engaging story brushed with a touch of magic or otherworldliness.
