She had a really bad childhood, with a

drug-addict mom and long line of horrible guys walking in and out of their house. She only survived because of her big brother Alex. Now she has everything she's ever dreamed of. She's the star of one of Hollywood's top TV Shows - for the seventh season in a row. But this season a new guy joins the cast as her character's love interest. Tattooed Hollywood Bad Boy Lance.... They're immediately extremely attracted to each other...but only Lance is open about what he really wants. And that is Brea. But Brea wants to deny her feelings. She swore she will never be dependant on another person again. But of course they can't resist each other and quickly become an item. But hanging out with Hollywood's bad boy is not really good for her good-girl image. But he's not really a bad boy, he's the sweetest guy ever!!!! He might be slightly dominant ... inside the bedroom and out. But not only their relationship is fodder for the media - her brother might be in some trouble too, and it's only a matter of time until her whole past will be revealed... _____ I LOVED THE STORY!! I really liked the blurb and I really looooooved Lance...give me a Rockstar - Navy SEAL or a Hollywood Hottie and I'm a total fangirl...The story really had great potential...but unfortunately, for me, it didn't quite live up to it's promise. This could've been the perfect story...I sooo love a good Hollywood Romance. I don't really know what bothered me, but there were some things I didn't like. The story sometimes just cruises along, with nothing much happening and lots of redundant lines. And then there's the writing style. I sometimes had the feeling that the author's first language isn't English - or she's fresh out of University, where it's required to write like that...She way too often uses the long versions for IT'S - I'M - YOU'RE etc. ... you're reading your book and you want the writing to flow from your mind's tongue and then you have to read I AM - IT IS - YOU ARE - all the time. In every other book you shorten it... Of course sometimes authors write the longer version when they need them to mean something, but here they just didn't need to be long. And it totally disturbed my reading-flow :(((Another thing...Brea's two best friends and co-stars have too many scenes in the book. It's ok to introduce them, especially because we'll get their own stories in the next two books, but they were really in this book a LOT BUT - when we forget/overlook those tiny little problems - the story was really great and very sexy and adorable! Don't let my stupid problems stop you from enjoying the book MISS CONGENIALITY was a really sexy Hollywood Romance with an amazingly adorable Bad Boy Hottie - who's not really all that bad.....and now I'm really looking forward to reading the next book in the series

Kurzbeschreibung Lance Holder lives life the way he wants and makes no apologies, regardless of what anyone thinks. All everyone sees is the tattooed, motorcycle riding, reckless movie star, preventing anyone from looking beneath the surface. And that's just the way Lance likes it. Brea Richards is America's sweetheart. She's spent years honing her current reputation as one of the leading stars of a prime time television show. It's a long way from her humble beginnings, but no one knows she's lived worse than most people see in a lifetime. Thrown together when Lance joins the cast of Brea's show, everyone is watching to see if America's bad boy will influence the sweetheart. But Lance seems to be one of the only ones to see beyond her current facade of pretending to be something she's not. When a blast from the past sends Brea right back to the place she swore she'd never go again, maybe America's bad boy is just what America's sweetheart needs. This book is intended for mature readers 18+.
