Von Heather Gudenkauf : Missing Pieces before purchasing it in order to gage whether or not it would be worth my time, and all praised Missing Pieces:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not as good as her other books...Von MariaJI expected more, other books by this author are so much deeper and characters more complex, this was flat. Sarah and Jack did not seem to be connected at all in the same way one would expect after so many years of good marriage... It did not ring true. Also I guessed who it was at some earlier point in the novel

and it was then no longer interesting... But I as suck at home and finished the book in one day... Read her other books!

Kurzbeschreibung New York Times bestselling author Heather Gudenkauf returns with a chilling page-turner about a woman chasing clues into a decades-old mystery that could have shattering repercussions. Everyone has secrets Sarah Quinlan's husband, Jack, has been haunted for decades by the untimely death of his mother when he was just a teenager, her body found in the cellar of their family farm, the circumstances a mystery. The case rocked the town where Jack was raised, and for years Jack avoided returning home. But when his beloved aunt Julia is in an accident, hospitalised in a coma, Jack and Sarah are forced to confront the past that they have long evaded. Sarah and Jack are welcomed by the family Jack left behind all those years ago barely a trace of the wounds that had once devastated them all. But as facts about Julia's accident begin to surface, Sarah realises that nothing about the Quinlans is what it seems. Caught in a flurry of unanswered questions, Sarah dives deep into the rabbit hole of Jack's past, but the farther she climbs, the harder it is for her to get out. And soon she is faced with a hard reality she may not be prepared for.
