Captivating Von Claudi H This book starts with a prologue introducing the main characters at age 7. I wasn't sure at first whether I wanted to read on when chapter one started with the same character at age 12, it just seemed to drag on a little. However, I'm really glad I stuck with this book. It's nerve racking, funny and a really good read all at the same time. And I certainly did not see that ending coming... The reason I only gave this book 4 stars is the editing, or rather

non-editing. In the beginning I only noticed incorrect or missing punctuation, which in the course of the book turned into missing words, at times you couldn't even guess what words were missing, a lot of sentences just didn't make any sense at all. I wish the author had gone to the trouble of having this really great book edited.

KurzbeschreibungHer best friend and her hero, that's what Adrianna Cooper calls the two Davis brothers next door. Their families have been living next door to each other for as long as she can remember and they have been looking out for her just as long. She has followed them around, played with them, aggravated them, and learned to love them both. With her mother a drunk and her father a busy doctor, they are her self-appointed guardians and fill the role nicely. Adrianna has never needed them to more than when her father dies and she is left in her mother's uncertain care. One stormy night drives Adrianna to forever alter her relationship with one brother and she asks to never speak of it again. Then trouble at home escalates and events beyond her control separate her from them. Can her relationship with the brothers survive the time and distance or are secrets kept the biggest threat to her happy future?
