Von V.C. Andrews : Misty (Wildflowers Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Misty (Wildflowers Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. I have

my reasons why this is considered good
Von Ein Kunde "Misty" is a spellbinding book that held my attention until the very end. I liked the book. I said it was good because I come from a family of divorced parents who can't get along. This is not an original horror book. It's a new and refreshed start. It's got a different style. I haven't read the other Wildflower miniseries books yet. But I will. I review many V.C. Andrews books. Most of the novels were better. I think people didn't care for the new series because they were so used to the other novels. The is probably good for children, (I emphasize that word), who come from broken families and need something to relate to. I read a review and was very intrigued by it. A girl named Cortni. She is on the right track. Especially for a twelve year old. Read her review. Anyways, just because of what you have heard about this Wildflower miniseries shouldn't stop you from reading it. If you don't want to buy it, rent or borrow it. I suggest you read it. It may help you cope with some situation of your own. Now I sound like a therapist. Read it, just don't suspect it to be a horror book. Look at it in a different perspective. E-mail me if you want to know more details on what I think of V.C. Andrews books. To tell you the truth, these V.C. Andrews books have become "vapid."
0 von 0 Kunden fanden die folgende Rezension hilfreich. Short, but good....
Von Ein Kunde I'll admit it. I'm thirteen years old, but I've been a devoted V.C. Andrews fan ever since I was eleven years old and saw "Fls. in the Attic", the worst movie ever, compared to the awesome book. I loved this book, I suppose because I'm a young teen and I can understand the characters and their feelings, but I am disappointed at how small these books are. Like many other angry reviewers, this book is VERY, VERY, VERY short and though these stories are different then the normal chilling, haunting tales of the real V.C. Andrews and the longer series not written by her, these stories are enthralling. Come on, Ghost Writer! I'm barely almost fourteen years old, and I WANT longer, thicker books! Many people claim that you're targeting the younger era, so I just had to tell you that "secret" before you make anymore miniseries concerning four children that must become friends one way or another, like the "Orphan Miniseries" did just like this one. I can't wait to read the next one of the "Wildflowers Miniseries", despite my previous sarcastic intentions. This is so good though, because if you are young you can identify with the characters. Kids who are younger then nine years old shouldn't read any of these (because of the sex, obviously). But please, Ghost Writer, gives us a break and make these MINIséries into LONGERseries.
0 von 0 Kunden fanden die folgende Rezension hilfreich. It's not bad
Von Ein Kunde This book is not a horrible book to a child like myself, (which is something I don't like to recognize. But after reading this book I am not so afraid to admit to things). I am only twelve. This book is sort of intense. I still like the other novels better. I like to read adult books. The only reason I said it was okay was that I come from a "broken" family too. Some of these things are very much the same as what happens and has happened to me. They're close enough to where I can relate to. I like to look at books in an adult perspective though. These books are so short. I like books that capture your mind so that you can't put it down. I just recently became a V.C. Andrews fan. I can polish of these books is two hours flat. This book was so short could probably finish the series in two hours. As I said before, this book is okay. But compared to an ORIGINAL V.C. Andrews novel, this book is not one of my favorites.

Kurzbeschreibung "We lived in such a perfect world. Why were we so imperfect?" All Misty ever wanted was a normal family. But like so many others, Misty's parents didn't stay together. Now they use Misty to hurt each other, to deliver tiny cruelties in an endless stream. Misty knows her parents might love her. But Misty has an unspeakable secret that burns in the core of her very being: she hates them. Misty isn't as alone as she thinks. She's about to meet three other girls who are just like her -- each one with their own dark secrets to share....
