Tag im Rampenlicht Von Erinome Seit Jahrhunderten ist Agent Franks vom MCB bereits im Auftrag der Menschheit unterwegs, um sie vor dem brennlichen zu beschützen. Seine einzige Bedingung dafür: Es dürfen keine weiteren Geschöpfe, wie er es ist, geschaffen werden. Als sich Stricken jedoch über diese Bestimmung hinwegsetzt und sein Projekt Nemesis enthüllt, bei dem Supersoldaten gezüchtet wurden, betrachtet Franks seine Vereinbarung mit der amerikanischen Regierung als null und nichtig und er zieht in den Krieg, um die Ordnung wiederherzustellen. MONSTER HUNTER NEMESIS ist der mittlerweile fünfte Teil der MONSTER HUNTER-Serie und in diesem Band steht Agent Franks im Mittelpunkt des Geschehens. Der Großteil der Handlung folgt ihm, die Hunters rund um Owen, Julie und Earl stehen in diesem Buch an den Seitenlinien. Franks ist ein interessanter Charakter, hinter dessen stoischer Fassade einige Überraschungen lauern. Wir erfahren mehr über seine Erschaffung und seiner Herkunft und auch seine Gefühle und Gedanken werden näher beleuchtet. Außerdem bekommen wir in MONSTER HUNTER NEMESIS einige Einblicke in die Arbeit des Monster Control Bureau. Die Agents Myers und Archer haben ihre Auftritte und auch Grant Jefferson spielt eine Rolle und wir lernen eine überraschende neue Seite an ihm kennen. Sehr gefreut hat mich, dass es auch ein Wiedersehen mit Heather Kerkonen gibt, die nach wie vor als Strickens Leibeigene im Einsatz ist. Die Handlung von MONSTER HUNTER NEMESIS ist wie in den Vorgängerbänden sehr geradlinig. Franks Mission ist klar und nichts und niemand kann ihn aufhalten. Es gibt außerdem einige Rückblenden in seine Vergangenheit. Wir erfahren auch mehr über den Weltensbau und die brennliche Hackordnung und es gibt einige Andeutungen darüber, was die Zukunft bringen wird. MONSTER HUNTER NEMESIS hat mich wieder begeistert. Die Materialschlacht während des Finales war mir fast ein bisschen zu viel und das Gelaber über Waffen habe ich wie immer überlesen, aber alles in allem hat mir das Buch trotzdem gut gefallen. Ich freue mich bereits auf den nächsten Band. Empfehlenswert! 1 von 1 Kunden fanden die folgende Rezension hilfreich. Agent Franks at his Top Von Drizzt Tolles Universum. Wer MHI liebt wird auch die Geschichte von Agent Franks lieben. Ich finde die Story interessant erzählt, Oliver Wyman liest bekannt routiniert. 100% Empfehlung für alle Fans der Serie, Neueinsteiger sollten von Beginn an anfangen, da es doch viele Querverweise gibt. Zusammenfassend: Franks ist einfach ein geiler BADASS.

Kurzbeschreibung#5 in multiple New York Times bestseller Larry Correias Monster Hunter series. Agent Franks of the U.S. Monster Control Bureau is a man of many parts parts from other people, that is. Franks is nearly seven feet tall and all muscle. He's nearly indestructible. Plus he's animated by a powerful alchemical substance and inhabited by a super-intelligent spirit more ancient than humanity itself. Good thing he's on our side. More or less. Sworn to serve and protect the United States of America from all monsters by one of the country's founding fathers, Franks has only one condition to the agreement: no matter what the government learns of him, no matter what is discovered concerning his odd physiology or the alchemy behind the elixir that made him, the government is never, ever allowed to try and make more like him. Such is absolutely forbidden and should the powers-that-be do so, then the agreement is null and void. Project Nemesis: in a secret location, using sophisticated technology and advanced genetic engineering, the director of the very agency Franks works for is making more like him. And the director is not content with making one. Nope, he's making thirteen. Now all bets are off, and Hell hath no fury like a monster betrayed. Particularly if that monster happens to be an undying killing machine capable of taking out vampires and werewolves with one hand tied behind his back. At the publisher's request, this title is sold without DRM (Digital Rights Management). Lexile Score: 800 About Larry Correias Monster Hunter series [A] no-holds-barred all-out page turner that is part science fiction, part horror, and an absolute blast to read. Bookreporter.com If you love monsters and action, you'll love this book. If you love guns, you'll love this book. If you love fantasy, and especially horror fantasy, you'll love this book. Knotclan.com A gun person who likes science fiction or, heck, anyone who likes science fiction will enjoy [these books] The plotting is excellent, and Correia makes you care about the characters I read both books without putting them down except for work so what day are you waiting for? Go and buy some for yourself and for stocking stuffers. Massad Ayoob About Larry Correias Monster Hunter Vendetta: This lighthearted, testosterone-soaked sequel to 2009's Monster Hunter International will delight fans of action horror with elaborate weaponry, hand-to-hand combat, disgusting monsters, and an endless stream of blood and body parts.
