have more? Von Susi Sunshine I received this book as a review copy from the author and I was a bit shy to start it at first. I haven't read Kiss of Moonlight so I was afraid to be totally lost in this one but I was wrong. Okay from time to time I noticed that I missed out on something but I plan to get Kiss of Moonlight ASAP. This book starts with a big bang. We are thrown in the middle of a burning house and with the fear of losing someone important. This part was the confusing part for me because I had no idea who all these people are but after the first chapter I was totally drawn into the story and just couldn't stop. Tira is very complex character. She cares for the ones she loves but she also has to shield her heart from breaking. She knows nearly all her life that she loves Drake and Nic however unusual that may seem. She always accepted that and knew they would live their lives together. But one day she gets this awful vision while touching Nic and she just can't resume living this way. She accepts that the decision to leave them will probably break her but it's better than the alternative. Or that's what she thought before Nic nearly dies in the aforementioned fire. Now she sees how short life could be and she has to grab her opportunity of happiness however short it may be, now. Drake is the silent broody type and he could never accept Tira's decision. He thinks she hates him because of what she saw in her vision so long ago and he just can't let it go. Every chance he gets he makes some asshole comment and always gets into a fight with her. He still wants her but he just can't stand this situation. Nic is more outgoing than Drake. He's full of life and some would say he has a death wish with all the risks he takes each day. He's a real Don Juan and didn't waste any time in the eight years without Tira. What I found real surprising that these relationship seemed so real to me. I'm mostly skeptical when it comes to long time threesomes. I always think that this kind of relationship could be really problematic from time to time. After all there is one person who can get hurt or feel out of the loop. But I could believe it works for these three. The relationship development between these 3 was heartbreaking. I so felt for them and I was they find a solution through the whole time and I felt as desperate as they felt. The whole situation seemed to be unsolvable. I also enjoyed the side characters. The whole story around the 3 was gripping and I loved the community Ms. Julian created. I especially liked that all seemed so tolerant and full of love. I'm always a sucker for a strong family and I always had to smile at all the Italian words. That was so like being in Italy. LOL All in all the book is a really hawt read with good m/f/m action. You will so need extra undies for this one. \*wink\* At times the story felt a bit rushed and the solution at the end was way too easy for me but I enjoyed it nonetheless.
