would be worth my time, and all praised Moonshifted: An Edie Spence Novel:

Kurzbeschreibung Moonshifted An Edie Spence Novel Cassie Alexander After surviving a brutal vampire attack, Nurse Edie Spence is ready to get back to work attending to supernatural creatures in need of medical help. But her nursing skills are put to the test when she witnesses a hit-and-run on her lunch break. The injured pedestrian is not only a werewolf, he's the pack leader. And now Edie's stuck in the middle of an all-out were-war. With two rival packs fighting tooth and nail, Edie has no intention of crossing enemy lines. But when she meets her patient's nephews, a tattooed werewolf named Lucas with a predatory gleam in his eye that's hard to resist, Edie can't help but choose sides. The question is: can she trust this dangerous new ally? And can she trust her own instincts when she's near him? Either way, Edie can't seem to pull away even if getting involved makes her easy prey.

Pressestimmen Praise for the Edie Spence series by Cassie Alexander "Dark and clever full moon insanity that will get into your blood, crawl under your skin and haunt your dreams." --Sherrilyn Kenyon, #1 New York Times bestselling author of the "Dark Hunter" series "A fast, sexy return to the utterly unique world of Edie Spence. "Moonshifted" takes the world Cassie Alexander presented in "Nightshifted" and adds a whole new level of danger and intrigue. Absolutely recommended." --Seanan McGuire, award-winning author of "Ashes of Honor" "Steamy and entertaining...Edie's growing personality--and the cliffhanger ending--will keep fans hooked." --Publishers Weekly "The best debut I've read all year. "Nightshifted" is simply amazing!" --Kat Richardson, bestselling author of the "Greywalker" series "Edie Spence has a distinctive, appealing and no-nonsense style that you won't quickly forget. Add to that a paranormal population that needs medical care for some very odd reasons, and you have a winner of a debut novel." --Kate Elliott, author of the "Cold Magic" series "Fresh, exciting, dark, and sexy, Nightshifted is excellent urban fantasy that grabs you by the throat and pulls you along for a wild ride. Cassie Alexander is an author to watch!" --Diana Rowland, author of "Mark of The Demon" "There's so much paranormal stuff out there that I often find myself longing for some true urban fantasy. "Nightshifted" is the one I was starving for. It's gritty and dark, its heroine jaded and tough, and both of them are studded with moments of humor and human frailty." --Angieville.com "Nightshifted" is like a dark and twisted version of "Grey's Anatomy" with vampires, zombies, and werewolves taking up residence in County Hospital's Y4 wing...The story moves at a similar pace to a hospital setting where there are small lulls in action and with sudden, even frantic bursts of action. That sort of pacing made "Nightshifted" an exciting read.

Praise for the Edie Spence series "Moonshifted" absolutely shone in the sequel department, extending my affection for the characters, while introducing new angles to sink my teeth into. It also possesses one humdinger of a climax. I was swept away in the force with which it built and the raging rush to the finish. I'm more attached to Edie than ever. This is urban fantasy of the highest order." --Angieville "A fast, sexy return to the utterly unique world of Edie Spence. breath of fresh air! It's filled with fascinating characters, including an enigmatic zombie firefighter, weres, shapeshifters, and of course, vampires. Nightshifted is a very strong start to what promises to be a wonderful new series!" -"My Bookish Ways""Edie is a fun character with heart and charisma, making it easy to fall for her and want to see her succeed in all of her adventures, whether they be dealing with paranormal patients, evil vampires, or potential lovers.
