EXCELLENT, TOUCHING, WONDERFUL BOOK!!!!!!!!!!!!!!Von Ein KundeThis was one of the best books I have ever read, EVER. Barbara Delinsky puts us right in there with the Popewells. She showed how Sam took responsibility for his actions and how one unfortunate, blurry incident changed everyone's life and brought out the good and the bad in

every character. In addition, Barbara showed how mostly everyone has a skeleton in their closet. I absolutely loved the relationship Sam and Annie had - and, of course, routed for Teke and Grady to get together. JD, of course, was such an immature jerk. It angered me that although he defended Teke to his father, he so blatantly, consistently, disrespected her to her face in front of the children. I thought "Coast Road" and "Together Alone" were excellent, but Barbara Delinsky outdid herself in "More Than Friends." I'll probably read it again in a few months. Barbara, please keep writing. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Great book! Von Ein Kunde I really enjoyed this book and the presence of so many characters. I liked this book because it deviated from the normal "good guy / bad guy" theme. This book was more like real life. The author showed the faults and strong points of all of the characters. It was easy reading but well written. 1 von 1 Kunden fanden die folgende Rezension hilfreich. It added wonderful humor to a realistic, intense story! Von Ein Kunde This book was a great combination of betrayal, humor, and real life decisions. I couldn't put this down! This is by far Barbra's best book! By the end I guarantee you'll want another book just like it - and there aren't any.

Kurzbeschreibung There's no bigger name in women's fiction than Barbara Delinsky. Rocky Mountain News (Denver) A beloved classic from Barbara Delinsky, *More Than Friends* is a powerful and unforgettable story of friendship, love, and forgiveness, emotionally vibrant and populated with truly memorable characters. A first-rate storyteller (Boston Globe) whose New York Times bestselling novels include *Suddenly*, *A Woman Betrayed*, and *The Passions of Chelsea Kane*, Delinsky proves once again how well she knows the human heart and its immense capacity to love and to believe (Washington Observer-Reporter). From Publishers Weekly The Popes and the Maxwells, known as the "Popewells," are more than next-door neighbors: Annie Pope and Teke Maxwell were college roommates; John David Maxwell is Sam Pope's oldest friend, and both men are full partners at the Boston law firm run by J. D.'s father. But in a matter of moments, the two families are torn apart by tragedy. Sam and Teke are spotted in an act of spontaneous (and unprecedented) lovemaking by 13-year-old Michael Maxwell, who dashes out of the house and runs into a passing pickup truck. The accident leaves the boy in a coma. Making things even more hideous for Teke is the fact that the pickup truck was driven by Grady Piper, her childhood sweetheart. J. D. copes by trying to get somebody sued or arrested, preferably Grady. When Sam's indiscretion comes to light, Annie can hardly bear to be around him. As the days drag on and Michael remains unconscious, it becomes apparent that the Popewell relationships are also badly injured and not all will survive. By focusing on these characters and their responses to adversity, Delinsky (*The Passions of Chelsea Kane*) skillfully turns a somber scenario into intriguing women's fiction.
