**Von Alan Russell : Multiple Wounds** before purchasing it in order to gage whether or not it would be worth my time, and all praised Multiple Wounds:

Very good book, great charactersVon MargaretA perfect book if you like good, clever entertainment with some thrill thrown in. The multi-personality-disorder of one of the main characters is absolutely convincing, no cheap trick to get the plot going, really, very convincing. The other main character, life-weary cop, sort of run down and getting unraveled around the edges.. really nice. And him perhaps getting consolation and perhaps happiness (nah, I won't spoil here!) -

good. It catered to my cheaper desires of justice in real life, when a weak woman successfully fought off a rape attempt.. GREAT. Normally you have to invent a character like Jack Reacher or Rambo for that.. you know, silent but deadly. But here, it's only one facette - as I said, a good read. A good buy.0 von 0 Kunden fanden die folgende Rezension hilfreich. EnjoyableVon FrauGI bought Multiple Wounds purely because I so much enjoyed "Set This House In Order" by Matt Ruff which I read about seven years ago and which has a place in my top fifty of "must reads". It's therefore really hard to comment on Multiple Wounds without comparing it to Mr. Ruff's offering. There were very many similarities in the way that the illness is described and the way in which the characters deal with their situation. Multiple Wounds is a great read and I'm sure I would have given it a five if I hadn't already read Ruff's book. Buy both and see what I mean but don't read one after the other - that's known as over-kill.0 von 0 Kunden fanden die folgende Rezension hilfreich. Tolle IdeeVon patrick thempelSuper Idee ( auch wenn ich mich wiederhole) , der Mann kann schreiben und hat Phantasie.Heutzutage ist jeder ein Kritiker und hat was zu nrgeln: an ein paar Stellen bin ich geholpert beim Lesen ( so wie "Hh?" ) Vielleicht auch die bersetzung. Insgesamt gut zu lesen

KurzbeschreibungHolly Troy's mind is a complex maze of myth and reality, multiple personalities vying for time in the spotlight. As an artist, she is creative and compelling. As a witness, she is painfully unreliable, unsure of even which person she was the night of the murder. Even Holly cant be sure of her own innocence. Homicide detective Orson Cheever never thought he would find himself playing psychologist to a Greek goddess in a modern-day murder investigation, but many of Holly's personalities come straight from classical mythology, from Cronos and Pandora to the Fates. As Cheever attempts to unravel truth from myth, he learns that there is even more to Holly than meets the eye. One personality in particularthat of a five-year-old girlhits a little too close to home, and Cheever is forced to finally pull back the dark curtains of his own past in order to uncover the truth in this psychological thriller.KurzbeschreibungHolly Troy's mind is a complex maze of myth and reality, multiple personalities vying for time in the spotlight.
