Von Dianne Harman : Murder in Cottage #6 (Liz Lucas Cozy Mystery Series Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Murder in Cottage #6 (Liz Lucas Cozy Mystery Series Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. When's the TV Series Comin'
Von CustomerI love the way Dianne Harman keeps me guessing right through the story. Even more than that, her work makes me feel at home. I have gotten to know her characters and look forward to each of her new books. Before reading the Cozy Mystery Series, I read her stories about the Coyote Motel and found that Ms.

Harman was a serious contender for my reading time. With the Cozy Mystery Series. I could see a TV Series with Judy Dench as the 'Boomer' sleuth. So nice to pick up a new book that I am certain will transport me to a familiar place. Cedar Bay has become such a place for me. A place I always want to go back to. Keep 'em rolling off the presses Ms. Harman. You're my 'fave' boomer writer. Her people highlight what I love about America, especially small-town America. Just plain friendly, even in the mysterious, murderous situations in her Cozy Mystery Series.0 von 0 Kunden fanden die folgende Rezension hilfreich. Great!Von Author Angie MartinA really fun mystery. I absolutely love Liz Lucas - she's my new Angela Fletcher! I enjoyed this cozy mystery very much. It reminds me of the cozy mysteries I read as a kid. Dianne Harman is an amazing author and she delivers in this great new novel! Highly recommended!2 von 2 Kunden fanden die folgende Rezension hilfreich. Eine Bettlektre im wahrsten SinnVon CustomerDas Buch ist selbst fr Leser, deren Muttersprache nicht Englisch ist, auf enervierende Weise platt geschrieben. Die Story entbehrt jeder Glaubwrdigkeit (zB :die Titelheldin wird vom Pathologen angehalten den Mord, der sich eigentlich erst nach mehr als der Hlfte des Buches als solcher herausstellt, selbst aufzukhren, da der ortsansssige Polizist zu unfhig dazu sei...), es fehlt an Spannung sowie auch vllig an Humor, was ich mir von dem Genre "cozy mystery" erwarten wrde. Zudem hat die Autorin scheinbar kein schlechtes Gewissen Wrter und/oder Redewendungen in einem Satz 2 bis 3 mal hintereinander einzusetzen. Es ist fast schon peinlich.Was manche Leser dazu gebracht hat, diese Lektre mit der hchsten Punktezahl zu bewerten, auf die ich mich beim Kauf dieses Buches leidergottes verlassen habe, wird fr mich auf immer und ewig ein Rtsel bleiben.Der eine Punkt, den ich dafr zu vergeben habe,steht als wirksames Schlafmittel, sofern man es schafft sich nicht zu rgern!

Kurzbeschreibung What would you do if you had a facial and the next day your face looked like a plum?Liz Lucas, a 52 year old widow, is beginning to think she's been given a second chance at life by owning a successful spa located in a beautiful forest area on the coast north of San Francisco.What could possibly go wrong? Well, for starters, discovering that a guest staying in cottage #6 at the spa has been murdered.In order to save the spa's reputation, Liz, along with her two dogs, Brandy Boy and Winston, sets out to find the killer. The cast of characters includes a handyman, spa employees, the bumbling police chief, the owner of Gertie's Diner, the dead woman's husband (the mayor), his girlfriend, and a Tiffany glass collector. One of them probably committed the crime, but it's up to Liz to quickly find the culprit.This is the first book in the Liz Lucas series by a USA Today Bestselling Author and seven time All-Star. Murder in Cottage #6 was voted by readers as one of the 50 Best Self-Published Books Worth Reading in 2015 by Readfree.lyKurzbeschreibung What would you do if you had a facial and the next day your face looked like a plum?Liz Lucas, a 52 year old widow, is beginning to think she's been given a second chance at life by owning a successful spa located in a beautiful forest area on the coast north of San Francisco.What could possibly go wrong?
