Escape to the cozy community of High Desert where a mystery is unfoldingVon kwadzanaI wasnt sure what a cozy mystery was but the title intrigued me and then the sample chapter pulled me right in. I was hooked. Im now a fan of the cozy

concept as well as a fan of gifted author, Dianne Harman. Also, don't we all love the concept of the amateur detective, the average person who stumbles upon a crime and reluctantly goes about trying to solve it? When it's done right, there is nothing more fun to read. *Murder The Monkey Band* is not just done right, it is a solid five star novel. The characters are charming and engaging, the setting has just enough descriptive text to form those movie images as you read, without getting sidetracked in too much detail. Harman masterfully weaves the relationship between the detective and the main character Marty into the story which keeps us wondering. All in all the story is just what we want when we crack open a new book or click on the title page in our Ebook reader: A fun, entertaining temporary voyage to another world; in this case the cozy world of High Desert. Come to High Desert and enjoy. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A Brilliant Cozy Mystery Von Grace Wedel I enjoyed this brilliant cozy mystery. I read it right through and as I got toward the end, it got exciting and I didn't want to put it down, I had to find out who the murder was. I particularly enjoyed learning a bit about the antique world and how the appraisal by Marty was done, I found it quite interesting. The way the colorful bunch of people got together in the charming courtyard for home cooked meals was captivating. I have read several of Dianne Harman's cozy mystery books and always enjoyed them and this one certainly didn't disappoint, it was an excellent read. I can highly recommend it. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Yippee a New Series! Von Anon Anon I am a fan of author Dianne Harman and was excited to read the first book in this new series. She continues to write excellent cozy mysteries. The characters are interesting and the plot, as usual, was well thought out and engaging. In this series, the main character is Marty Morgan an antique and art appraiser. She is thrown into a murder case of a client wanting an appraisal. There are lots of suspects, Marty and Detective Jeff Combs work together to solve the crime. This is an excellent start to what I know will be a compelling series!
