Von Lori Foster : Murphy's Law (Law series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Murphy's Law (Law series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great

romantic suspense meets romantic comedy! Von Bianca @BJsBBI wanted to read this book because I love Lori books. And I loved this too. But what my book *Alzheimers* prevented me from remembering this book has been sitting on my shelf - ALREADY READ - for almost ten years! I just didn't remember I've already read it! So, now I've read it again. And it was really cute again. We have the sexy, rich business man and the cute, slightly weird girl juggling 2 jobs and school. And some insta-mega-attraction. But Ashley just can't waste time on some guy at the moment. She's too busy with trying to not live like her parents. But of course Quinton and Ashley can't stay away from each other. And then we also have the murderous stalker chasing us!!!! Lots of excitement for the reader and the hero heroine until we can ride off into our forever ever after sunset! I really enjoyed this book. It's soooo sexy there are some huge sparks flying between those two, even before anyone's getting naked!!! And it's cute and funny and moving and heartbreakingly adorable and of course suspensey too. Great romantic suspense meets romantic comedy! Just what you would expect from Lori! Oh, one thing I would suggest you read *Jude's Law* before reading this! May and Jude and Denny and Tim are in here a lot too and those two stories kinda belong together!!! 0 von 0 Kunden fanden die folgende Rezension hilfreich. funny, witty, sexy Von Ein Kunde I liked "Jude's Law" a lot, in which we already met Ashley and Quinton, so I was really looking forward to "Murphy's Law". And Ms. Foster went above and beyond all my expectations, I just loved this book - read it in one night, because I just HAD to know what was going to happen next. Ashley Miles is a hardworking - two jobs + college - woman from a really bad family background. She wants to become a nurse and works as a waitress and cleans offices at night, to pay for college and rent and to put away some money for her big dream, her own house. While cleaning offices she met Quinton Murphy, CEO of a consulting firm and 'filthy rich'. They had instant chemistry and the air between them is sizzling BIG time. But seeing that her schedule is already tight, Ash doesn't want to get involved. But Quinton just won't take no for an answer. While Quinton courts - or at least tries to - Ashley, Elton Pascal, the bad guy from "Jude's Law", shows up again and this time wants to kill Ashley, because by helping Jude she made his life go down the drain. Ashley is the most independent heroine, funny, witty, intelligent... And Quinton is sexy, caring and definitely an alpha male, but willing to compromise. And together they're just great.

Kurzbeschreibung Lori Foster is a funny, steamy, guaranteed good read! Say YES! to Lori Foster. --Elizabeth Lowell ANYTHING THAT CAN GO WRONG. . . Nothing is going to go wrong. Ashley Miles has worked too hard for her independence to let some Bentley-driving hunk named Quinton Murphy interfere with her plans or her freedom. Yes, the chemistry is phenomenal. Kind of scary, actually. But that's it. NO emotional commitments. . . WILL But hes SO wonderful a woman could fall in love . . . How did that happen? That wasn't part of the plan! But can she trust him? Really trust him? The man is just so mysterious. There's only one solution: put it all on the line and see what Quinton does when she tells him how she feels. And hope everything that can go wrong. . . wont. . . Smart, Sexy, engaging characters. The pages sizzle! --Christine Feehan . . . From Publishers Weekly Lori Foster reintroduces benevolent, hunky millionaire Quinton Murphy and scrappy, virginal Ashley Miles in her unconvincing follow up to *Jude's Law*. Although Ashley is too busy for love trying to get ahead (she works two jobs while attending college), her sexual attraction to Quinton is so strong that they begin an affair. After thwarting the evil plans of the previous book's villain, a dangerous nutjob, Ashley's now atop his hit list, but fails to appreciate the danger she's in or Quinton's concern for her safety. Inelegant foreshadowing that points out Ashley's resemblance to her best friend is just one of the book's clunky aspects; another is Ashley's unbelievably stubborn go-it-alone attitude, which not only grows wearisome, but calls her intelligence into question at several points as the story (and violence) progresses. And considering Foster's background in contemporary romance, toss-away phrases straight out of Regency England ("watering pot," "leg-shackled") strike odd notes. Still, the major issue is that Quinton must work too hard to prove his worthiness to Ashley, leaving readers to wonder why such a great hero would fall in love with such a prickly pain in the behind. From Booklist As Foster's *Jude's Law* (2006) ends, Jude Jamison, former wrestling champ turned movie star, tired of his stardom, has moved to the small town of Stillbrook, Ohio, and hooked up with art dealer, May Price. They get their happily-ever-after ending, but May's best friend, the charmingly sarcastic Ashley, needed a book of her own to finish her story, and this is it. Ashley has been sparring with Quinton Murphy, another character from *Jude's Law*, and she's not sure what to do with him. At 29, she's never been with a man, always using her ready wit and fast comebacks to distance herself from any romantic contenders. But Quinton is different. Instead of being put off by Ashley's snippiness, he finds her prickliness quite adorable. Ashley, realizing she's in over her head and needs advice, turns to Denny, former wrestling trainer and Jude's right-hand man, who becomes Ashley's confidante. Other characters making a return appearance (libraries should have both *Law* titles) include the car-bombing villain, and the element of danger enhances the entertainment.
