Von Joan Barbara Simon : Mut@tus: She's Gotta Have It (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mut@tus: She's Gotta Have It (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
commentVon federica biancoJoans live performance of Mut@tus at the Kulturfabrik (Luxembourg) swept me off my

feet; she effortlessly managed to enable a direct connection between the protagonists feelings and the audiences thrilled grasp. Throughout her performance my six senses transcended the typescript, and thus surrendered to the characters (un)abashed mindset. In fact, her voice passionately opened doors to records unheard before: When it comes to portraying two sides of the same coin, that is, both the loss of inhibitions and somehow the propulsive sense for liberty, Joan Barbara Simons acting involves bravery and desperation at once. How far can one go to feed ones curiosity? 0 von 0 Kunden fanden die folgende Rezension hilfreich. what a read !! Von Kunde I dont normally read erotic fiction, so when this novel was recommended to me, I hesitated. My fear, Im glad to say, was totally unfounded. Mut@tus is like nothing I have ever read before. it is a brilliant depiction of the modern woman taking and savouring her right to sexual expression. Ostensibly written as an online romance, Mut@tus (as its title suggests) is constantly mutating between literary genres, political perspectives, philosophy. You will laugh. You will be left speechless by the beauty of countless passages in this book. You will fall in love with Joan Barbara Simon and rush to buy her other novels 0 von 0 Kunden fanden die folgende Rezension hilfreich. WITTY AND HOT!! Von Eden M. This is an innovative novel; a real tease for the mind and body. More intelligently written and more intellectually demanding than Charlotte Roche, Mut@tus is the book for you if you want to take your enjoyment of erotic fiction to the next level, beyond, say, Fifty Shades. Witty, acerbic, hot. Just what the doctor ordered for the woman of today.

Kurzbeschreibung What do women want? Women want more. They want your best. In the bedroom and anywhere else you care or dare to play. Now, lets see whos man enough... What if you've been told you have everything you could wish for, yet you know there is still a hole in your life? You do something about it. If you dare. Virginia Mendes dares. Not only is she certain that life has more to offer, she is convinced she owes it to herself to find out just how much. But is the grass greener on the cyber side? And what if she dared to take the anonymous adventure a step further? Or should we say closer? If you like true-to-life erotica, hauntingly brilliant social commentary and provocative female leads, then youll love this. Call it erotica. Call it women's fiction, urban fiction, contemporary, psychological or multicultural fiction, Joan Barbara Simon's Mut@tus is, above all, for bright readers who want more than grey. A groundbreaking novel you will not be able to get out of your mind. Kurzbeschreibung What do women want? Women want more. They want your best.
