Von Anastasia Bear : My Alpha Billionare Werebear In Law (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised My Alpha Billionare Werebear In Law (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. How many clichs can you fit in one title....Von -KundeI have not read or bought the book even though it was free... but how many clichs can you fit in one title or story... so the were creatures now also have to be billiionaires and step relatad to their prey.... and according to another review the cuckold niche is also in there.. covering all trends in the market in

one fell swoop? It was probably a toss up between were creature, vampire and ghost... it was listed under BDSM as well, although there is no mention of it in the blurb...I had a good laugh about this... I gave it a medium rating to be fair, but the concept is just ridiculous... my gut feeling is one or two stars :-)

KurzbeschreibungIt's been ages since we've seen each other. He was gone for so long ever since his company started being successful. I was just glad he never forgot about me and all the time we shared together growing up under the same roof.As soon as we saw each other, it was like he had never left. Scrambling to tear my clothes off, he threw me down on the couch of the people who raised us. There was no regard for who might find out what we were up to. He needed me and he needed me now.That was nothing compared to the secret he showed me later that evening though. Stopping in the middle of the woods, he showed me the real animal inside.KurzbeschreibungIt's been ages since we've seen each other.
