romance boring is mind-boggling. Is it because the author quotes Latin, Ovid and Catullus? Is it because the hero and heroine actually talk to one another, rather than boink behind every tree in the forest or nook in the castle at the least opportunity? Besides, how could I resist a book where the hero is so enigmatic that the heroine's first words to him are, "Are you Death?" :) If you enjoy the wounded hero type, a man with secrets and great pains in his soul; if you like your heroines to grow in the story, becoming emboldened and nobler in character; if you like to see people fall in love credibly, step by step, before consummation, rather than just lusting all over the chapters of a romance; then you should love MY BELOVED. A glorious castle. A hero to break your heart. A heroine who casts off her fears in the name of love and life and grows up. Secrets that unfold. A plot that touches on the religious aspects of the time period. An exploration of loyalty and doing what is right. But above all a delicious love story. I have not read a medieval all the way through in a few years. I'd become bored with how similar they were. This one is different, and I thank Ms. Ranney for reminding why I once adored Medieval Romances so very much. PS--I had read a Ranney historical before and didn't particularly care for it, but was willing to give this one a try after it was recommended to me by more than one person. I'm glad I listened. PPS--For those who LIKE boinking in their books, this one has several very intense love scenes. Me, I can do without so many pages of the details of conjugal bliss, but I didn't want to leave the possible reader thinking this was a "dry" romance. Oh, no. Interestingly, the sexiest, most mouth-watering scene takes place in such a way that the hero never so much as sets one finger on the heroine. A big "Whoo!"

He has to outwit the Templars to save his land and people. As part of his plan, he sends for Julianna, the Langlinais Bride. They married as children and she has spent the last twelve years in a convent. This is an unforgettable love story. The characters touch your heart and soul. The book is not to be missed. Dust off a space on your bookshelf because this is a definite keeper. It will be read over and over again until the pages fall out. It is a story that could only have been written by Karen Ranney, with her unique talent and ability to see into the souls of her characters and bring them to life on a written page, to be cherished by her readers. The book is wonderful. Ms. Ranney is an exceptional talent. May her star shine for a very long time.

It seemed like their love was star-crossed. I felt Juliana's ache and Sebastian's despair. But their love was stronger than just physical gratification... there were some downright erotic scenes that had me totally absorbed! It seems like with the help of the inexplicable and supernatural forces... these two people were given a second chance. And I was cheering for them all the way through. I love this book, can't wait to read others by Karen!!
