Von Kathy Carmichael : My Lady Mischief (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised My Lady Mischief (English Edition):

Kurzbeschreibung ers International Award Winner Lady Thea has set her cap on a local farmer's son. When Hart, the Marquis of Hartingfield, arrives on the scene, he sends her wits reeling and her senses blazing. It's up to Hart, the catch

of the London Season, to convince her that their union will be a perfect love match. But if Thea was wrong about her feelings for the farmer's son, can she trust her growing attraction to Hart? She leads the dashing aristocrat on a merry chase through the English countryside and glittering London, setting the ton abuzz with the question: Will Hart succeed in capturing her heart?"Warm and witty, a marvelous romp." ~ Karen Harbaugh, Award-winning Regency Author
