KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. a great leisure to readVon Diana MuirMs. Richardson writes about real people who live in a real world. When they fall in love they are confused, uncertain, hampered by misunderstandings, circumstance and the misguided if well-intentioned intervention of family. They speak, feel and behave like real human beings, human beings who lived in a time and place when society and its assumptions were vastly different form those of our own time. It was a pleasure to put myself in Ms. Richardson's capable hands and watch two appealing characters fall in love.
