**Von Kathy Love : My Sister Is a Werewolf** before purchasing it in order to gage whether or not it would be worth my time, and all praised My Sister Is a Werewolf:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. An enjoyable tale of a Werewolf and a VetVon Helen Hancox"My sister is a Werewolf" initially appears to be one of the

slightly humorous paranormals that are so popular at the moment. However this book doesn't have any particular humour but it does have a very well-written tale of two people with lots of baggage falling in love and carving out a future together. It's a follow-up to three other books about the heroine's brothers but this book works fine as a standalone novel and any relevant backstory is given. Elizabeth Young isn't quite what she seems - a research scientist living in a quiet backwater. Yes, she is those things, but she also has a secret life as a Werewolf and her research aims to 'cure' herself of lycanthropy. She has broken away from her pack and is living on her own but she has a 'mate', Brody, so her life is not her own, even though she has run away from him. Jensen Adler is the local veterinarian and little else. Since his fiancee Katie died he hasn't dated any other women and isn't really living much of a life, just looking after his grandfather and working. When some friends arrange a blind date for him he finds himself completely knocked sideways by a woman - unfortunately not his date. The woman seems to respond to him and they end up leaving the bar together. The relationship in this book is rather backwards - sex first, getting to know each other later - but there's a reason for it which becomes clear in due course. However Jensen finds himself with a woman who seems to either try to seduce him or to run away. Her behaviour appears in some ways outrageous but he is also aware that this isn't her normal nature. Jensen notes there are some strange things about Elizabeth, and her brothers are also a bit odd, and yet he continues to try to have a relationship with her and to put up with her vacillations about whether they should see each other. Most of this book focuses on the relationship between Jensen and Elizabeth. The couple appear on almost every page and even the return of Brody and the potential harm he could cause Jensen doesn't intrude too much into the plot. This story is about characters getting to know each other and finding out each others' history, even though much has to be kept in the dark. The writing style in this book was very good and it was an easy read with excellent pacing. Despite the fact that the plot is actually rather thin, it felt like a satisfying book to read and was never boring. I wondered if the author could have made more of the threat from Brody, especially as the final denouement happened very quickly and was solved in a rather facile way, but it was still a worthwhile read. Originally published for Curled Up With A Good Book, Helen Hancox 2007

Kurzbeschreibung The sexy Young brothers may know a fang or two about the art of seduction, but their sister, Elizabeth, is positively mooning over a few issues of her own. . . Bad Moon Rising Elizabeth Young's brothers think they have it rough as vampires? Ha! Two words for them: unwanted hair. What werewolf Elizabeth craves is a normal life with a husband, kids, and less shaving. Unfortunately the vaccine she's researched isn't working yet. Worse, she's in heat--and soon every dangerous wolf pack for miles around will be at her door. To buy time, she needs to have sex, and often, with the first human male she can find. . . Veterinarian Jensen Adler just meant to drown his sorrows, until a stunning, leather-clad brunette made him an offer he couldn't refuse. Now he's caught up in something really weird, definitely dangerous, and, okay, extremely hot. So his new girlfriend's hiding something (and she's a little freaky about the moon), but Jensen knows true love when he feels it, and this time, he's not giving up. . . no matter how hairy things get. From Booklist Elizabeth Young met a different fate than her vampire brothers. Turned into a werewolf centuries ago, she has settled down in a small American town to work on a cure for her affliction. If settled is the right word. Her hormones have ramped into overload for Jensen, a very human vet. And she has been running from her unstable alpha, her mate, who needs her to regain power in the pack. Life doesn't get much more complicated than this, or dangerous, but with the help of her friends, family, and a newfound love, Elizabeth has more than a fighting chance. Love has a way of expertly blending poignant narrative with wonderfully lovable flawed characters, and in the final book about the Young siblings (Fangs but No Fangs, 2006; I Only Have Fangs for You, 2006), she adds a suspense-filled, supersexy plot to keep her readers' hearts racing in more ways than one. Davis, Nina C. Kurzbeschreibung The sexy Young brothers may know a fang or two about the art of seduction, but their sister, Elizabeth, is positively mooning over a few issues of her own. . .
