KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A triad built on a solid foundation of love.Von Jean SmithCharlie Mason is drowning in grief, responsibility and traitorous relatives. If that were not enough she is suffering from mating heat the only problem she sent her mates away. Life is

enough of a struggle trying to put her pack back together without dealing with not one, but two mates two mates that will want her to leave her pack and live with them in Sanctuary. As the new alpha of her pack, this is something she wont contemplate. When her uncle, Victor decides to court their enemy and vie for her position as alpha, though, its time to call in her mates and let the chips fall where they will. Garrett and Travis were forced by lycan law to walk away from their mate when she ordered them to. They dont like it. Its getting hard to wait for her call. In the meantime, their enemy Xerxes is up to his usual tricks. He has another kitsune in his keeping and its going to take their mates resources and direction to get to her. But dare they call Charlie? They are hard pressed to decide and then they get her call. She needs her ex-soldier, bad boy tattooists. She needs her mates. The circumstances may not be the choicest, but theyll take what they can get when it comes to claiming their mate. Their mating is fiery and explosive. However, it isnt a bed of roses. The challenges just keep piling up and the danger escalates. These three will have their hands full salvaging what they can from what is left of her pack. While their mating may come on the ashes of the past it will be built on a solid foundation of love. Ive read a few of Krystal Shannans books to date. I enjoyed them. I suppose its a good thing that we dont rate books according to the others an author writes, though, because this one is so much better. I know that is probably my prejudice speaking, though. Ive read both her contemporary and a few of her paranormal romances. So, you might ask what it is about this one that appeals even more. I should preface this by saying My Warrior Wolves is the first in the Sanctuary, Tx series that Ive read. The Sanctuary, Tx series brings the heat to another level. It also is just that much farther into another world, a world with lycans, dragons, djinn, vampires, sirens and any number of other paranormal species. Sanctuary, Tx exists in a divided America. This opens up the chances for world building exponentially. The series also has a real nasty villain. So yeah, the suspense, action, romance and paranormal aspects really just do it for me.*****Reviewed for Xtreme-Delusions*****

When the wolf brothers receive her cry for help, they know that the time has finally come and their shared mate needs them now more than ever. But with danger knocking on the threshold, can they get to her in time, saving her while holding on to what they both want?Interview with the AuthorQ - So, what makes the Sanctuary Texas series special?A A lot of different reasons. Mostly I wanted to create something that mirrored the kind of books I like to read. My top picks are usually paranormal romance and urban fantasy novels. Any of the shifter and supernatural best sellers out there of course, get my vote, and anything that has strong heroes, heroines, unique worlds, dangerous and fast-paced action-filled plots. The Sanctuary Texas books are a great mix of all my favorite things. Youll find the series based in a small town in Texas (my home state) and it has a mixture of vampires, shifters of all different kinds, and some paranormal creatures you might never have heard of before, plus incorporating psychological thrills that will send you on an emotional rollercoaster, suspense to keep you on the edge of your seat, and scorching hot romance to curl your toes. It also keeps with my theme of meant to be fated mates in each and every individual novel.Overall, the Sanctuary Texas series is designed to keep you turning the pages and pull you completely into the world of SANCTUARY and its citizens.Q - What order should I read the books in? A While Ive written the series so you can read the books in any order to enjoy each couples Happily Ever After, I'd suggest the following sequence to really capture the build of the larger series journey: - My Viking Vampire (#1)- My Dragon Masters (#2)- My Eternal Soldier (#3)- Mastered: Teagan (#4)- My Warrior Wolves (#5)- My Guardian Gryphon (#6)- My Vampire Knight (#7)Q - So, why should readers give these books a try? A - Because the Sanctuary Texas series is a sexy, thrilling ride that wont let you go! Each of the books has hit the top ten bestsellers list on Kindle for Vampire Romance and Paranormal Romance.Ultimately, readers who enjoy supernatural action packed romance with plots that wont fail to surprise --will like these books.
