A book that really draws you into it Von Ein Kunde I could not put this book down once I started reading it. Great stories, well told, and a few wonderful illustrations to boot. One thing that irritated me greatly, however, was the author's use of "ignorant people" to refer to the Norsemen, in reference to their religion. It is completely unnecessary to bring your

own views in a manner such as this when you're retelling stories (IMO, anyway). 2 von 2 Kunden fanden die folgende Rezension hilfreich. Unbelievably vast amount of Norse reference, Astounding! Von Ein Kunde This book has got to be one of the most (if not THE most!) informative books on Norse mythology currently available. Each chapter went into great detail about Odin, Thor, Freya, etc. to the point that if you buy just one Norse mythology book for your library, this should be it. I'm going to read it again shortly just because there is so much excellent information in this tome. The highest recommendation!! 2 von 2 Kunden fanden die folgende Rezension hilfreich. Outstanding Von Ein Kunde This publication is an excellent compilation of the Nordic World-View. It describes many beings, events, and items and then references them with their original sources. A particularly enjoyable aspect of the book is that it uses an older, more scholarly language. A wonderful addition to any Norse collection!

Kurzbeschreibung Extensively illustrated throughout this early work is a comprehensive and informative look at the subject and still a fascinating read today. Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
