Realistic charactersVon Detra FitchBreaking all the rules, this new imprint tells the story of Lizzie, a hip, upbeat young woman in London who writes an advice column for a trendy magazine. When she becomes involved with Matt, she has no idea that he jis married. Not only is he married, but his wife has written Lizzie for help in saving her marriage and has become email pen pals with her. How the truth will affect them all is the heart of this story.**** While the story does hold one's attention, I found it difficult to read a book that appears to condone adultery. As a hero, Matt is not one to be admired, nor is Lizzie a role model for the modern woman. The most sympathetic character is the "villain" the

scorned wife, who reacts very believably to this awful situation.
