**Von Lea Wald : Naughtier than nature: Sexperiments (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Naughtier than nature: Sexperiments (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Wundervoll!Von J.Q.L. 4150A difficult topic, to be sure. But here handled with the insight of personal experience one would expect. Menopause being such a momentous turning point in a woman's life, it is handled with all the care that

it should-- then some! Highly Recommended, und don't be bashfull ;) 0 von 0 Kunden fanden die folgende Rezension hilfreich. Amazing read! Von Steven P Amazing book, purchased this for my wife and she absolutely loved it. This book takes woman through a journey that everyone must go through and helps to enlighten the subject. Definitely a book worth reading, comes highly suggested.

Kurzbeschreibung It is a book about women and menopause my target group. Topics like frankness, directness, honesty, clear ambiguities, dullness in bed, boredom, the allure of the unknown play a role in it. And men, of course. And women. These are stories written by life itself - often unplanned things women simply stumble into. I often wonder, why does all this happen to me only?
