expect from a collection like this. Love, lust, erotica, and all tied up nicely in a very pretty bow. This is a quick and highly satisfying read.0 von 0 Kunden fanden die folgende Rezension hilfreich. NAUGHTY BUT GREATVon Al-Khemet Book ClubNaughty and Nice: Singles Night by four amazing authors has left me craving more books from each of them individually.The 1st story is titled What You Deserve, by Marissa Oldham, and it was a beautiful tale about an overweight lady, as the story suggest who has always had a low self esteem who later goes on to find someone who sparks something inspiring inside her, its moving and heartwarming with a slight touch of eroticism.The 2nd story is titled Jaded by S.M. Rose, and takes a nice turn in the book. We are introduced to Lucys friend (Lucy is the main character from the first story) Claire who meets a strange woman name Jade, and together they embark on a passionately physical affair that threatens to set the pages on fire.The 3rd story is titled To Mend a Broken Heart by Noah Wilde, and the fourth is Last Call by Emma Payne. While the final two stories are really good, I chose to comment on my personal favorites and those are truly enough to get you to check the book out but I am off to one click other books by all the authors in this beautiful, breathtaking collection.*Review copied to US, UK, CA, AU, DE, FR, IT, NL, ES, BR, IN, MX, JP*Al-Khemet Book Club, Apr 20150 von 0 Kunden fanden die folgende Rezension hilfreich. The Bar SceneVon Peru EditorThese are basically bar scene stories from the female perspective which isn't too much different from the male perspective except that females who hang out in bars don't have any illusions about denying the fact that they're depressed. As always stories like these are more revealing about the thoughts of the people who write them than human nature. After all, we're all interested in sex, that's hard wired in. What confuses people are contradictory expectations and other opportunistic groups that have figured out ways to control people by making them feel shame about their most basic impulse (which is not healthy).The stories in this collection are professional and compelling. I wouldn't say they're quite as entertaining as actually going out to the bar and having your own adventure, but if you lack the knowledge as to what such a night entails, these books will give you a good starting point. Also, you can pick it up and read it in the comfort of your own home...but a happy ending isn't guaranteed (it never is).
